History of Education in the Ming Dynasty Li Shi, The book is the volume of History of Education in the Ming Dynasty among a series of books of Deep into China Histories The earliest known written records of the history of China date from as early as 1250 BC from the Shang dynasty c 1600 1046 BC and the Bamboo Annals 296 BC describe a Xia dynasty c 2070 1600 BC before the Shang but no writing is known from the period The Shang ruled in the Yellow River valley which is commonly held to be the cradle of Chinese civilization However Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River These Yellow River and Yangtze civilizations arose millennia before the Shang With thousands of years of continuous history China is one of the world's oldest civilizations and is regarded as one of the cradles of civilization The Zhou dynasty 1046 256 BC supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule The central Zhou government began to weaken due to external and internal pressures in the 8th century BC and the country

eventually splintered into smaller states during the Spring and Autumn period. These states became independent and warred with one another in the following Warring States period. Much of traditional Chinese culture, literature, and philosophy first developed during those troubled times. In 221 BC, Qin Shi Huang conquered the various warring states and created for himself the title of Huangdi or emperor of the Qin, marking the beginning of imperial China. However, the oppressive government fell soon after his death and was supplanted by the longer-lived Han dynasty. From 206 BC until AD 1912, routine administrative tasks were handled by a special elite of scholar-officials. Young men well-versed in calligraphy, history, literature, and philosophy were carefully selected through difficult government examinations. China's last dynasty was the Qing, 1644-1912, which was replaced by the Republic of China in 1912 and in the mainland by the People's Republic of China in 1949. Chinese history has alternated between periods of political unity and peace and periods of war and failed statehood, the most recent being the Chinese Civil War, 1927-1949. China was occasionally dominated by steppe peoples, most of whom were eventually assimilated into the Han Chinese culture and population. Between eras of multiple kingdoms and warlordism, Chinese dynasties have ruled parts or all of China. In some eras, control stretched as far as Xinjiang and Tibet, as at present. Traditional culture and influences from other parts of Asia and the Western world, carried by waves of immigration, cultural assimilation, expansion, and foreign contact, form the basis of the modern culture of China.

Acquisition of Word Order in Chinese as a Foreign Language Wenying Jiang, 2009-09-04
Research in the field of Chinese as a second foreign language (L2) acquisition at present does not match the increasing demand to learn Chinese as an L2, given that Chinese is the fastest growing foreign language in countries such as Japan, South Korea, the United States, Canada, UK, and Australia. Particularly, research in Chinese L2 word order acquisition requires more attention because word order plays a more complex role in Chinese than in English due to the fact that Chinese relies heavily on word order for information structuring. Experience with Chinese L2 learning and teaching shows that Chinese word order errors are a significant problem with adult English-speaking learners. However, Chinese L2 researchers and teachers are left with no means to adequately describe and explain these errors for instructional purposes. This book is specifically written to provide such a means for them to understand Chinese word order, to describe and explain Chinese word order errors, and also to help treat such errors in L2 classrooms. The centrality of word order in Chinese grammar and the emerging popularity of learning Chinese L2 make this book an important resource for both the learner and the teacher.
