Australia's Human Rights Scrutiny Regime Adam Fletcher, 2018-09-17 In 2010 the Australian Government decided that it would not propose a Human Rights Act despite

the relevant recommendation of the 2008 09 National Human Rights Consultation Instead it introduced a Human Rights Framework comprising several measures to enhance human rights protection including the Human Rights Parliamentary Scrutiny Act 2011 The scrutiny regime under that Act was designed to ensure rights would be given due consideration before Commonwealth legislation was passed The Act created a unique bipartite dialogue system involving a formal interchange on rights compatibility between the executive and Parliament while excluding the courts This set the Commonwealth apart from jurisdictions such as the ACT Victoria New Zealand and the UK which have statutory rights instruments administered by their courts The book presents a detailed study of all aspects of the scrutiny regime and compares the regime with its closest counterparts overseas In assessing the regime's impact it argues that a system in which the executive and Parliament are responsible both for protecting rights and for remedying rights breaches is neither more legitimate nor more effective than one involving all three branches of government Accordingly it calls for strengthening reforms

U.S. Military Detention Operations in Post-Abu Ghraib Iraq Jeffrey Meriwether, 2018-02-22 Detention operations are vital to U S military doctrine and crucial to the success of combat and recovery missions This book shows that the image of abuse from Abu Ghraib were but one small harmful element in an overwhelmingly successful detention mission in Iraq It focuses on the subsequent developments and successes explaining the standard rule of law approach taken by the U S military and examining the work in Iraq of such leaders as Major General John D Gardner and Major General Douglas M Stone Overall the text moves away from the Abu Ghraib scandal to illuminate a largely unknown successful development in the U S detention operations Following the Abu Ghraib scandal of 2003 2004 the U S Department of Defense scrambled to recover its reputation and that of its troops As the Bush Administration sought to redefine torture military judge advocates consistently challenged such moves arguing in favor of the Geneva Conventions humanitarian practices By 2006 Department of Defense policy stipulated full respect for and use of the Geneva Conventions This development was indeed a victory for American support for rule of law in Iraq as well as an affirmation of standard practices in the detention command Task Force 134 Pressures of war however continued to present their own challenges
