Traitor's Kiss Erin Beaty, 2017-05-09 An obstinate girl who will not be married A soldier desperate to prove himself A kingdom on the brink of war An action packed expertly plotted story drenched in double crosses and intrigue with an irresistible heroine and a sweet and sexy romance Publishers Weekly starred review With a sharp tongue and an unruly temper Sage Fowler is not what they d call a proper lady which is perfectly fine with her Deemed unfit for a suitable marriage Sage is apprenticed to a matchmaker and tasked with wrangling other young ladies to be married off for political

alliances She spies on the girls and on the soldiers escorting them As the girls military escort senses a political uprising Sage is recruited by a handsome soldier to infiltrate the enemy ranks The more she discovers as a spy the less certain she becomes about whom to trust and Sage becomes caught in a dangerous balancing act that will determine the fate of her kingdom With secret identities and a tempestuous romance Erin Beaty's *The Traitor's Kiss* is full of intrigue espionage and lies An Imprint Book Marital and martial matters collide when brides and spies become ensnared in a treasonous plot Sage is a clever contrary female protagonist who remains realistic and likable while her fellow protagonist Ash is enigmatic enough to require a second read Both epic and intimate a semi old fashioned alternative to the wave of inexplicably lethal superheroines and their smoldering love triangles Kirkus Reviews *Paul Auster's "The New York Trilogy" as Postmodern Detective Fiction* Matthias Kugler, 1999-10-28 Inhaltsangabe Abstract Paul Auster's New York Trilogy published in one volume for the first time in England in 1988 and in the U S in 1990 has been widely categorised as detective fiction among literary scholars and critics There is however a striking diversity and lack of consensus regarding the classification of the trilogy within the existing genre forms of the detective novel Among others Auster's stories are described as metaanti detective fiction mysteries about mysteries a strangely humorous working of the detective novel very soft boiled a metamystery glassy little jigsaws a mixture between the detective story and the nouveau roman a metaphysical detective story a deconstruction of the detective novel antidetective fiction a late example of the anti detective genre and being related to hard boiled novels by authors like Hammett and Chandler Such a striking lack of agreement within the secondary literature has inspired me to write this paper It does not however elaborate further on this diversity of viewpoints although they all seem to have a certain validity and underline the richness and diversity of Auster's detective trilogy neither do I intend to coin a new term for Auster's detective fiction I would rather place *The New York Trilogy* within a more general and open literary form namely postmodern detective fiction This classifies Paul Auster as an American writer who is part of the generation that immediately followed the classical literary movement of American postmodernism of the 60s and 70s His writing demonstrates that he has been influenced by the revolutionary and innovative postmodern concepts characterised by the notion of anything goes on a planet of multiplicity as well as by French poststructuralism He may however be distinguished from a traditional postmodern writer through a certain coherence in the narrative discourse a neo realistic approach and by showing a certain responsibility for social and moral aspects going beyond mere metafictional and subversive elements Many of the ideas of postmodernism were formulated in theoretical literary texts of the 60s and 70s and based on formal experiments include the attempt of subverting the ability of language to refer truthfully to the world and a radical turning away from coherent narrative discourse and plot These ideas seem to have been internalized by the new generation of postmodern writers of the 80s to such Cognition In and Out of the Mind Giovanni Bennardo, Victor C. de Munck, Stephen Chrisomalis, 2024-06-30 This edited collection presents an agenda for the interdisciplinary study of anthropology and cognitive science It consists of fifteen chapters written by
