Makers at Work Steven Osborn, 2013-09-27 What do you get when you

combine an electronics hobbyist hacker garage mechanic kitchen table inventor tinkerer and entrepreneur A maker of course Playful and creative makers are through expertise and experimentation creating art products and processes that change the way we think and interact with the world As you ll see from the 21 interviews in Makers at Work inquisitive makers are just as apt to pick up a laser cutter or an Arduino as a wrench to fashion something new For example you ll meet Jeri Ellsworth who might provide a video lecture on magnetic logic one day and a tutorial on welding a roll bar on a stock car the next You ll also meet Eben Upton who put cheap powerful computing in the hands of everyone with the Raspberry Pi Becky Stern who jazzes up clothing with sensors and LEDs and bunnies Huang who knows the ins and outs of the Shenzhen China electronics parts markets as well as anyone As all the interviews in Makers at Work show makers have something in common reverence for our technical past coupled with an aversion to convention If they can't invent new processes or products it's simply not worth doing Crazy as foxes makers working in the spirit of Tesla Wozniak Edison Gates Musk and many others can bring sophisticated products to the people or to the market as fast or faster than large corporations And they are not just enabling new technologies and devices they are changing the way these devices are funded manufactured assembled and delivered Makers at Work puts a spotlight on the maker mindset and motivation of those who are reinventing the world one object or idea at a time You will Meet the individuals who define what it means to be a maker Learn about the tools and technologies driving the new industrial revolution Discover ways to scale your weekend project into a profitable business See how others have used to crowdfunding to make their visions a reality Learn how open source hardware and software is enabling whole new categories of products by removing barriers of entry for inventors The new masters of the Makerverse ask two questions Can it be done Is it fun As these interviews will show the answer to both questions is Let's find out **Make Elephants Fly** Steven S. Hoffman, 2017-11-14 Drawing on examples of the hottest innovators in Silicon Valley this step by step guide will show you how to develop test and launch your impossibly big idea to success Almost every major company today has made innovation its number one priority Yet fewer than one in four executives believe their organizations are effective innovators The pressure to innovate and the price paid for failure keeps rising while most companies haven't progressed at all They are still using the same antiquated techniques pioneered decades ago This is why some of the biggest corporations in the world manage to lose entire markets to startups they've never heard of In today's world everyone will need to innovate to stay competitive It doesn't matter if you're a startup founder corporate executive small business owner freelancer or professional there's a technology out there that's going to upend your industry And if you aren't able to harness it to your advantage someone else will Innovation is no longer an option it's the price of admission into the business world Make Elephants Fly is designed to help you implement the same innovation methodologies and processes as Silicon Valley startups It will teach you How startups come up with breakthrough products and services How to structure innovation teams The best ways to identify and vet new ideas What it takes to foster a culture of innovation How to establish a process of innovation throughout your

organization By the time you've digested this book you will have the tools needed to take your impossibly big idea and make it fly
