*is the key to Automobile Construction
and we have the key*

Henry Ford has made a life work of the development of the Automobile and presented to the world a car so perfected that the success of the Ford Motor Co. is without a parallel in the Automobile Industry.

The fundamental features of the first Ford Car were light weight (resulting in economy of maintenance), ample power (not too much and not too little BUT ALWAYS POWER) and absolute simplicity, with the elimination of every unnecessary complication. These features still further developed are distinctive in Ford cars to-day. There have been no freaks, no failures, no experiments in Ford cars.
