warmer air and a filtered air inlet on the opposite side near the floor You ll need to ensure that temperatures remain within a comfortable range for your plants between 70 degrees F and 85 degrees F when lights are on and between 58 degrees F and 70 degrees F when they are off Some varieties of cannabis generally indica strains prefer the lower side of the range while others are more tolerant of higher temperatures *HOW TO GROW MARIJUANA INDOORS* Carlos M.
