Procter, 2016-07-15 As the importance of electronic and digital devices in the provision of healthcare increases so does the need for interdisciplinary collaboration to make the most of the new technical possibilities which have become available This book presents the proceedings of the 13th International Conference on Nursing Informatics held in Geneva Switzerland in June 2016 This biennial international conference provides one of the most important opportunities for healthcare professionals from around the world to gather and exchange expertise in the research and practice of both basic and applied nursing informatics The theme of this 13th conference is eHealth for All Every Level Collaboration From Project to Realization The book includes all full papers as well as workshops panels and poster summaries from the conference Subjects covered include a wide range of topics from robotic assistance in managing medication to intelligent wardrobes and from low cost wearables for fatigue and back stress management to big data analytics for optimizing work processes and the book will be of interest to all those working in the design and provision of healthcare today *Beyond Access* Stephanie J. Waterman, Shelly C. Lowe, Heather J. Shotton, 2023-07-03 This book argues that two principal factors are inhibiting Native students from transitioning from school to college and from succeeding in their post secondary studies It presents models and examples of pathways to success that align with Native American students aspirations and cultural values Many attend schools that are poorly resourced where they are often discouraged from aspiring to college Many are alienated from the educational system by a lack of culturally appropriate and meaningful environment or support systems that reflect Indigenous values of community sharing honoring extended family giving back to

one's community and respect for creation. The contributors to this book highlight Indigenized college access programs meaning programs developed by not just for the Indigenous community and are adapted or developed for the unique Indigenous populations they serve. Individual chapters cover a K-12 program to develop a Native college-going culture through community engagement, a crash course offered by a higher education institution to compensate for the lack of college counseling and academic advising at students' schools, the role of tribal colleges and universities, the recruitment and retention of Native American students in STEM and nursing programs, financial aid, educational leadership programs to prepare Native principals, superintendents and other school leaders, and finally data regarding Native American college students with disabilities. The chapters are interspersed with narratives from current Indigenous graduate students. This is an invaluable resource for student affairs practitioners and higher education administrators wanting to understand and serve their Indigenous students.

The Doctor of Nursing Practice Essentials: A New Model for Advanced Practice Nursing Mary Zaccagnini, Judith M. Pechacek, 2019-10-01. Healthcare Education in Nigeria Joseph A. Balogun, 2020-12-30. This book provides a comprehensive and authoritative assessment of the training of health professionals in Nigeria, looking back to how health care education has evolved in the country over time, before investigating new and emerging trends. The book begins with a discussion of the fundamentals of health care education, the art of teaching health care students, and modeling professionalism in health care. The book highlights the work of pioneer Nigerian health care academics and explores the administration of health care education at departmental level. Finally, it highlights the role of elite Nigerian health care academics in the diaspora, chronicles contemporary challenges in health care education, and makes recommendations for reform. This book will be of interest to students, scholars, and practitioners working on health care education in Africa.
