Breaking Into New Markets Emerging Lessons For Export Diversification:

Breaking Into New Markets Richard Newfarmer, William Shaw, Peter Walkenhorst, 2009-03-12 International trade in 2009 is projected to contract for the first time since 1982 As a result export diversification has gained new urgency as one way of using exports to recover lost growth momentum Moreover diversification is central to reducing income volatility and sustaining high growth rates which are especially important for countries with large populations living in poverty In the 1950s countries became concerned that their dependence on primary products would lead to steady falls in the purchasing power of primary exports and thus slow growth A major policy objective of developing countries since that time has been to diversify out of primary products into manufactures Although some nations have been at least partially successful many low income countries remain dependent on a narrow range of primary products *Breaking Into New Markets* argues for a comprehensive view of diversification It explores new thinking and evidence about export diversification and elaborates on policies for its promotion These policies span tariffs and taxes services and government activities to help firms take advantage of global opportunities The book is a compilation of chapters written as short policy focused pieces Many digest longer more academic papers in an effort to make the information accessible to a larger policy and nontechnical audience In that sense the book is a policy primer on what export diversification can and cannot do for growth and how to make diversification happen Intelligently designed policies that efficiently address the obstacles to export growth are critical for overall economic growth and poverty reduction This book offers insights useful to policy makers and practitioners as they embark on efforts to design new programs of competitiveness in their trade strategies

Pathways to African Export Sustainability

Paul Brenton, Olivier Cadot, Martha Denisse Pierola, 2012-07-17 African export ventures often fail early a trend that causes waste uncertainty and discouragement This book shows how governments and donors can help boost African export sustainability through a mixture of traditional policy prescriptions and selected proactive interventions

Handbook of Globalisation and Development Kenneth A. Reinert, 2017-03-31 Characterised by conceptual diversity the *Handbook of Globalisation and Development* presents contributions from prominent international researchers on all aspects of globalisation and carefully considers their role across a whole host of development processes The *Handbook* is structured around seven key areas international trade international production international finance migration foreign aid a broader view and challenges Adopting a multi disciplinary approach the section on a broader view delves into dimensions of globalisation and development that go beyond the mere economic such as culture technology health and poverty Carefully crafted the chapters herein offer a rigorous and comprehensive assessment of the available research to date and provide an assessment of policy options across all areas considered

Iceland International Monetary Fund, 2010-10-04 In this study during 2008 the financial crisis led Iceland's public debt to soar from under 30 percent of GDP to more than 100 percent of GDP and while underlying external debt came down sharply it remains elevated at close to 300 percent of GDP First external

sustainability is overviewed and second growth of Iceland's economy has been challenged and finally fiscal adjustments and its macroeconomic impacts are overviewed Traditional external debt sustainability analysis DSA suggests that Iceland's external debt is sustainable but is vulnerable to depreciation shock

Changing the Industrial Geography in Asia

Shahid Yusuf, Kaoru Nabeshima, 2010 A Great Burst Of Globalization brought the 20th century to a close creating upheaval in the world economy from roughly 1995 to 2008 And now with the new century barely commenced a second upheaval is in the offing following the severe financial crisis that plunged the global economy into recession in 2008-09 The first upheaval witnessed a massive migration of manufacturing and certain business services that transformed Asia into the industrial heartland of the world The second upheaval will likely consolidate Asia's industrial preeminence and could result in a concentration of industrial activities in the two most populous and fastest growing Asian economies China and India As the two Asian giants become the industrial equals of the United States Germany and Japan the ramifications will affect trade and growth worldwide the future of development in China and India and industrialization throughout Asia Changing the Industrial Geography in Asia The Impact of China and India examines these developments focusing specifically on China and India Its analysis and conclusions will be of particular interest to policy makers and academics as well as anyone with an interest in how China and India are likely to reshape industry throughout Asia Changing the Industrial Geography in Asia is rich in detailed analysis of the continuing transformation of the manufacturing sector in Asia both in terms of its moving geography and its composition For those interested in understanding the prospects of post financial crisis Asia this book is a must read It is a refreshing return to economic fundamentals including the new problems of climate change and dwindling energy resources and will remain the leading reference on Asian transformation for a long time to come The authors consolidate a remarkable amount of data and analysis on the industrial structure of Asia and its emergence as the industrial center of the global economy

Leveraging Export Diversification in Fragile Countries

José López-Cálix, 2020-02-12 Despite multiple past efforts fragile Sub Saharan African economies such as those of Mali Chad Niger and Guinea still rank among the least diversified worldwide with natural resources constituting a high share of their gross domestic product or exports Large scale production of gold for Mali oil for Chad uranium for Niger and bauxite for Guinea offers substantial opportunities but also has major shortcomings Conclusive evidence shows poor economic performance by resource rich but fragile Sub Saharan African countries The primary reason is not only their high vulnerability to external shocks but the greed or grievances that typically lead to rents appropriation by a small group of elites in countries that are prone to conflict Leveraging Export Diversification in Fragile Countries explores the following questions What are Mali's Chad's Niger's and Guinea's main constraints to export diversification as perceived by key exporting firms How it could be beneficial for these countries to target certain emerging export products Are their current interventions to promote global value chain GVC adequate What lessons can be extracted from specific cases How can trade

and logistic policies favor or hamper export diversification led growth The book lays the groundwork for effective step by step multidimensional policies to propel export diversification in fragile economies that are hindered not only by poor governance and weak institutions but also by their landlocked position except Guinea small domestic markets and business unfriendly environments Recognizing that traditional project interventions in these countries have had limited success mainly due to their unidimensional focus on single components of an agricultural value chain the book proposes a GVC 2 0 cluster based approach to export diversification in which complementary efforts attract foreign firms and public investment in support of agribusiness Promising pilot examples of joint implementation plans among multiple donors risk sharing facilities and agribusiness clusters provide valuable insights into recent global value chain developer interventions **International**

Trade, Distribution And Development: Empirical Studies Of Trade Policies Paul Brenton,2014-08-18 International Trade Distribution and Development brings together a collection of papers that have sought to assess empirically the impacts of policy measures affecting trade The carefully selected papers analyze the impact of trade barriers and their removal with a focus on distributional consequences and economic development Grounded in rigorous empirical analysis this book covers a range of policy issues such as impacts of trade on wages non tariff barriers trade preferences export survival and carbon labelling An invaluable reference for readers seeking to understand the impact of trade policies the book also seeks to shed light on future research especially for research on developing countries **Export Diversification and Economic Growth**

Juan Felipe Mejía,2011-07-31 The main research problem addressed in the book is the one regarding the role that export diversification could play for enhancing economic growth in Colombia both in terms of new products and new geographic markets The underlying motivation for centering the analysis on the European Union s market are manifold reaching from the evident concentration of exports both in terms of composition and markets that Colombia still shows to the small amount of empirical studies analyzing the current status and potentialities of the commercial relations between Colombia and the European Union WTO Disciplines on Subsidies and Countervailing Measures Dominic Coppens,2014-05-22 Does the WTO

leave appropriate policy space to its Members to pursue legitimate objectives such as the economic development of developing countries the conversion to a greener economy or recovery in times of a global economic downturn This legal and normative analysis of the WTO rules on subsidies and countervailing measures sheds light on why governments resort to subsidization and by tracing the historical origins of the SCM Agreement and the Agreement on Agriculture on why they have been willing to gradually confine their policy space This sets the stage for a systematic and comprehensive legal analysis of both agreements which integrates the vast amount of case law and proposals tabled in the Doha round A separate case study explores the complex rules on export credit support and the book closes with an in depth normative assessment of these WTO rules on subsidies and countervailing measures **Algeria** International Monetary Fund,2011-02-03 This paper assesses recent developments in gas markets and the implications for Algerian gas demand and prices Algeria s gas production is

stable but its share in global gas production has been on a downward trend since the early 2000s The impact of a change in the spot oil price WTI on gas prices can be statically examined with a vector autoregression VAR The impact of spot oil prices on Algeria s contracted gas price remains strong but export volumes are under pressure
