**A Therapist's Workbook for
Affect Regulation and Somatic Attachment**

By Karen Rachels, MFT

Body Brain Love Therapists Regulation

**Helen Payne, Sabine Koch, Jennifer
Tantia**

Body Brain Love Therapists Regulation:

Body, Brain, Love Karen Rachels, 2015-12-22 Karen Rachels *Body Brain Love A Therapist's Workbook for Affect Regulation and Somatic Attachment* is a first of its kind contribution to the dynamic and unfolding world of body brain integration. This workbook accessibly integrates three critical areas of therapeutic work brought to us by the Decade of the Brain: 1 brain based attachment theory, 2 the neuroscience of affect regulation, and 3 practical somatic skills to grow clients' brains. Therapists have the opportunity to view their own experiences through the lens of neuroscience, including their own dysregulation, and how their attachment strategies interweave with the attachment strategies of clients. By offering a more experiential and somatic way to absorb the information, learning is easy and immediately applicable for therapists seeking to effect transformation with clients. This book bridges mindfulness and neuroscience based self-help books with the more academic, didactically focused books for therapists. It uses a self-help format but is in fact for therapists. Post-test charts with clarifying exercises, specific self-focused exercises, games, case vignettes, and a complete session transcript all facilitate learning in both a cognitive and experiential manner. The author has brought this vital information to therapists in a style that easily teaches practitioners necessary and effective 21st Century skills which enhance compassion and self-compassion and create authentic therapeutic relationships.

Sex Addiction as Affect Dysregulation Alexandra Katehakis, 2016-09-20 Examining the neurobiological underpinnings of sex addiction, Neuroaffective science studying the integrated development of the body, brain, and mind has revealed mechanisms linking psychological and biological factors of mental disorders, including addiction. Indeed, its paradigm-shifting theoretical umbrella demonstrated that substance and behavioral dependencies share identical neurobiological workings, and thus that problematic repetitive behaviors are genuine addictions, a state increasingly understood as a chronic brain disorder. Clinical experience strongly suggests that sex addiction (SA) treatment informed by affective neuroscience, the specialty of Alexandra Katehakis, proves profoundly transformative. Katehakis's relational protocol presented here blends neurobiology with psychology to accomplish full recovery. Her Psychobiological Approach to Sex Addiction Treatment (PASAT) joins therapist and patient through a relationally based psychotherapy, a holistic dyadic dance that calls on the body, brain, and mind of both. Written with clarity and compassion, this book integrates cutting-edge research, case studies, verbatim session records, and patient writings, and art. Katehakis explicates neurophysiological, psychological, and cultural forces priming and maintaining SA, then details how her innovative treatment restores patients' interpersonal, sexual, and spiritual relationality.

The Trauma Recovery Toolkit: The Resource Book Kim Matias, 2022-07-19 This guidebook is part of The Trauma Recovery Toolkit and needs to be purchased alongside the flashcards for full and effective use. Both can be purchased together as a set 978 0 367 54690 8. This guidebook is part of The Trauma Recovery Toolkit, a guidebook and flashcard set that has been created to empower individuals living with the effects of trauma and the mental health professionals that support them. Inspired by the latest research surrounding mindfulness, self-compassion, neuroscience, and

trauma recovery the resource explores the effect of trauma on the brain and body and offers strategies which may be helpful in combatting the symptoms The flashcard format enables trauma survivors to creatively respond to visual aids and prompts in a way that is comfortable for them providing mental health professionals with a more creative and person centred approach to directing clients towards their own healing journey This resource comprises 38 colourful flashcards that can be used as standalone visual aids or as a platform for creative responses A guidebook delving into the individual cards their meaning and symbolism and the research behind them Additional resources to support the client s development of their own personalised cards Weaving together psychoeducation creativity symbolism and the latest neuroscientific research this essential toolkit offers all professionals working in mental health services a creative way to engage clients with therapy empowering them to develop habits and ways of being that can support their recovery Intended for use in educational settings and or therapy contexts under the supervision of an adult This is not a toy *Clinical Casebook of Couple Therapy* Alan S. Gurman, 2012-11-26 An ideal supplemental text this instructive casebook presents in depth illustrations of treatment based on the most important couple therapy models An array of leading clinicians offer a window onto how they work with clients grappling with mild and more serious clinical concerns including conflicts surrounding intimacy sex power and communication parenting issues and mental illness Featuring couples of varying ages cultural backgrounds and sexual orientations the cases shed light on both what works and what doesn t work when treating intimate partners Each candid case presentation includes engaging comments and discussion questions from the editor See also *Clinical Handbook of Couple Therapy* Fourth Edition also edited by Alan S Gurman which provides an authoritative overview of theory and practice
