Mehdi, 2020-02-01 As society continues to rely heavily on technological tools for facilitating business e-commerce banking and communication among other applications there has been a significant rise in criminals seeking to exploit these tools for their nefarious gain. Countries all over the world are seeing substantial increases in identity theft and cyberattacks as well as illicit transactions including drug trafficking and human trafficking being made through the dark web internet. Sex offenders and murderers explore unconventional methods of finding and contacting their victims through Facebook Instagram popular dating sites etc while pedophiles rely on these channels to obtain information and photographs of children which are shared on hidden community sites. As criminals continue to harness technological advancements that are outpacing legal and ethical standards law enforcement and government officials are faced with the challenge of devising new and alternative strategies to identify and apprehend criminals to preserve the safety of society. The Encyclopedia of Criminal Activities and the Deep Web is a three volume set that includes comprehensive articles covering multidisciplinary research and expert insights provided by hundreds of leading researchers from 30 countries including the United States the United Kingdom Australia New Zealand Germany Finland South Korea Malaysia and more. This comprehensive encyclopedia provides the most diverse findings and new methodologies for monitoring and regulating the use of online tools as well as hidden areas of the internet including the deep and dark web. Highlighting a wide range of topics such as cyberbullying online hate speech and hacktivism this book will offer strategies for the prediction and prevention of online criminal activity and examine methods for safeguarding internet users and their data from being tracked or stalked. Due to the techniques and extensive knowledge discussed in this publication it is an invaluable addition for academic and corporate libraries as well as a critical resource for policy makers law enforcement officials forensic scientists criminologists sociologists victim advocates cybersecurity analysts lawmakers government officials industry professionals academicians researchers and students within this field of study.

The Fashion Show Goes Live Rebecca Halliday, 2022-01-27 Beginning with Alexander McQueen's infamous attempt to live stream his 2009 Plato's Atlantis collection on SHOWstudio this book traces how digital and social media have disrupted social structures within the field of fashion and transformed the way it is communicated and consumed. Analysing key case studies from Chanel Givenchy Yeezy and Opening Ceremony to interactive social media and see now buy now campaigns from Burberry Topshop and Tommy Hilfiger The Fashion Show Goes Live analyses the mode and impact of fashion shows transmission. Through the rise of experimental film fashion shows tailored for media transmission and the use of live streaming and social media to render shows immediate to consumers fashion weeks and fashion shows have become not just trend barometers but material sites that demonstrate media's effects. Rebecca Halliday evaluates the performativity of

consumer relations to such live streams and other mediatized content In linking these relations back to fashion show footage she demonstrates that although intended to communicate fashion to mass audiences these practices also promote it as exclusive and aspirational Despite democratized international access to content the shows themselves remain elite events kindling new forms of consumer attention interaction immaterial labour and desire Through the microcosm of the fashion show *The Fashion Show Goes Live* asks broader socio political questions about the effects of the fashion industry s mediatization challenging the notion that new technology has fostered inclusivity
