Passing Score

To pass this exam, a score of 520 points is required. In actuality, a score of 520 corresponds to getting 60% of the exam's content correct. This is because the test's scoring scale is a 200-point range (from 400 to 600) effectively representing 100% of the exam, and thus, every 2 points above 400 represents 1% of content responded on the exam.

To make this more concrete: if you answer 60% of the test questions correctly, you will receive a score of 520 – which is the passing score. This scoring method allows for more nuanced evaluations of each candidate's competency and understanding.
