

The background of the book cover is a detailed painting of an ancient bog body's head. The head is shown in profile, facing left, and is resting on a pile of dry, golden-brown straw. A thin, light-colored wooden strip is placed horizontally across the face, covering the eyes. The skin of the head is a pale, yellowish-green color, with some darker, more textured areas around the mouth and chin. The overall lighting is dramatic, with strong highlights on the forehead and the straw, and deep shadows in the surrounding areas.

Bog Bodies Uncovered Solving Europe's:

Bog Bodies Uncovered: Solving Europe's Ancient Mystery Miranda Aldhouse-Green, 2015-09-08 The grisly story of the bog bodies updated via details of archaeological discovery and crime scene techniques Some 2 000 years ago certain unfortunate individuals were violently killed and buried not in graves but in bogs What was a tragedy for the victims has proved an archaeologist's dream for the peculiar and acidic properties of the bog have preserved the bodies so that their skin hair soft tissue and internal organs even their brains survive Most of these ancient swamp victims have been discovered in regions with large areas of raised bog Ireland northwest England Denmark the Netherlands and northern Germany They were almost certainly murder victims and as such their bodies and their burial places can be treated as crime scenes The cases are cold but this book explores the extraordinary information they reveal about our prehistoric past **Bog Bodies Uncovered** updates Professor P V Glob's seminal publication *The Bog People* published in 1969 in the light of vastly improved scientific techniques and newly found bodies Approached in a radically different style akin to a criminal investigation here the bog victims appear uncannily well preserved in full page images that let the reader get up close and personal with the ancient past

Bog bodies Melanie Giles, 2020-12-15 This electronic version has been made available under a Creative Commons BY NC ND open access license The bog bodies of north western Europe have captured the imaginations of poets and archaeologists alike allowing us to come face to face with individuals from the past Their exceptional preservation permits us to examine minute details of their lives and deaths making us reflect poignantly on our own mortality But as this book argues the bodies must be resituated within a turbulent world of endemic violence and change Reinterpreting the latest continental research and new discoveries and featuring a ground breaking cold case forensic study of Worsley Man Manchester Museum's bog head it brings the bogs to life through both natural history and folklore revealing them as places that were rich and fertile yet dangerous The book also argues that these remains do not just pose practical conservation problems but also philosophical dilemmas compounded by the critical debate on if and how they should be displayed

In the Darkest of Days Matthew J. Walsh, Sean O'Neill, Lasse Sørensen, 2024-02-29 This book collects recent works on the subjects of sacrificial offerings ritualized violence and the relative values thereof in the contexts of Scandinavian prehistory from the Neolithic to the Viking era The volume builds on a workshop hosted at the National Museum of Denmark in 2018 which inaugurated the beginning of the research project *Human Sacrifice and Value* The limits of sacred violence and was supported by the Museum of Cultural History at the University of Oslo The volume brings together research and perspectives that attempt to go beyond the who what and where of most archaeological and anthropological investigations of sacrificial violence to address both the underlying and explicit forms of value associated with such events The volume reopens investigations into notions of value relating to diverse evidence and suggested evidence for human sacrifice and related ritualized violence It covers a broad spectrum of issues relating to novel interpretations of the existing archaeological

materials but with a focus on the study of value and value dynamics in these diverse ritual contexts engaging in questions of identity cosmology economics and social relations Cases span from the Scandinavian Late Neolithic and Nordic Bronze Age through to the well known wetland deposits and bog bodies of the Iron Age to Viking era executions deviant burials and contemporaneous double multiple graves exploring the implications for the transformation of sacrificial practices across Scandinavian prehistory Each contribution attempts to untangle the myriad forms of value at play in different incarnations of human offerings and provide insights into how those values were expressed e g in the selection and treatment of victims in relation to their status personhood identity and life history
