## **Bonobo Handshake A Memoir Of Love And Adventure In The Congo:**

*Bonobo Handshake* Vanessa Woods, 2011 Traces how a Discovery Channel writer and her scientist fiancé settled in a Bonobo sanctuary in war torn Congo where their research enabled greater understanding of the characteristics and largely peaceful culture of the rare ape that shares 98.7 percent of human DNA

**Bonobo Handshake** Vanessa Woods, 2011-06-07 A young woman follows her fiancé to war torn Congo to study extremely endangered bonobo apes who teach her a new truth about love and belonging In 2005 Vanessa Woods accepted a marriage proposal from a man she barely knew and agreed to join him on a research trip to the Democratic Republic of Congo a country reeling from a brutal decade long war that had claimed the lives of millions Settling in at a bonobo sanctuary in Congo's capital Vanessa and her fiancé entered the world of a rare ape with whom we share 98.7 percent of our DNA She soon discovered that many of the inhabitants of the sanctuary ape and human alike are refugees from unspeakable violence yet bonobos live in a peaceful society in which females are in charge war is nonexistent and sex is as common and friendly as a handshake A fascinating memoir of hope and adventure *Bonobo Handshake* traces Vanessa's self discovery as she finds herself falling deeply in love with her husband the apes and her new surroundings while probing life's greatest question What ultimately makes us human Courageous and extraordinary this true story of revelation and transformation in a fragile corner of Africa is about looking past the differences between animals and ourselves and finding in them the same extraordinary courage and will to survive For Vanessa it is about finding her own path as a writer and scientist falling in love and finding a home Watch a Video

*Venomous River* Eli Greenbaum, 2025-10-21 Join herpetologist Eli Greenbaum on his race to identify a multitude of unidentified species in the Congo a volatile African region overcome with population pressure military oppression and climate change These are the backdrop challenges to the science pursued by Dr Greenbaum in this timely work worthy of Darwin *Venomous River* chronicles a field scientist's search for new species in the Congo Basin one of the world's great crucibles of biodiversity in the face of climate change Although tropical forests cover less than 10 percent of Earth's land surface they are home to about two thirds of the planet's terrestrial biodiversity Unfortunately a ballooning human population has severely damaged half of the planet's pristine ecosystems and the biodiversity they contained leading to an unfolding sixth mass extinction In Joseph Conrad's famous 1899 novella *Heart of Darkness* he described the Congo River as a great snake More than a century later herpetologist evolutionary biologist and seasoned expedition leader Eli Greenbaum set out to find the Democratic Republic of the Congo's Congo for short incredible diversity of serpents in the flesh along with the country's rarest frogs lizards crocodiles and turtles which live in and along Africa's second largest river For a biologist an expedition into the heart of the Congo is a priceless gift with its incredible species known and unknown lurking around every bend in the river But the Congo is also a place of endemic political instability widespread corruption human suffering and extraordinary danger These as much as the challenges of the natural world confront any scientist doing field work in the

Congo Venomous River is the harrowing story of a biodiversity scientist's successful quest to discover several new amphibian and reptile species in the remotest heart of Africa a wilderness where he encounters friendly peoples a cook who is revealed to be a dangerous killer highly venomous snakes and scorpions deadly tropical diseases and troubling echoes of the Congo's colonial history All That Is Bitter and Sweet Ashley Judd, Maryanne Vollers, 2012-02-21 NEW YORK TIMES BESTSELLER From humanitarian and actress Ashley Judd comes an important and moving memoir Every reader will be inspired Bill Clinton Enlightening full of real life stories that reflect both the compassion of its author and the need for healing in the world Madeleine K Albright In 2002 award winning film and stage actor Ashley Judd found her true calling as a humanitarian and voice for those suffering in neglected parts of the world After her first trip to the notorious brothels slums and hospices of southeast Asia Ashley knew immediately that she wanted to advocate on behalf of the vulnerable During her travels Judd started to write diaries that detailed extraordinary stories of survival and resilience But along the way she realized that she was struggling with her own emotional pain stemming from childhood abandonment and abuse Seeking inpatient treatment in 2006 for the grief that had nearly killed her Judd found not only her own recovery and an enriched faith but the spiritual tools that energized and advanced her feminist social justice work In this deeply moving and unforgettable memoir Judd describes her odyssey from lost child to fiercely dedicated advocate from anger and isolation to forgiveness and activism In telling it she answers the ineffable question about the relationship between healing oneself and service to others

**Encountering Gorillas** James L. Newman, 2013-07-05 Gorillas the largest of the apes inhabiting our planet have been a source of fear awe and inspiration to humans In this book James L Newman brings a lifetime of study of Africa to his compelling story of the rich and varied interaction between gorillas and humans since earliest contact He illuminates the complex relationship over time through the interlinked themes of discovery exploitation understanding and continuing survival Tragically the number of free living gorillas facing habitat loss disease and poaching has declined dramatically over the course of the past century and the future of the few that remain is highly uncertain At the same time those in zoos and sanctuaries now lead much more secure lives than they did earlier Newman follows this transition highlighting the roles played by key individuals both humans and gorillas Among the former have been adventurers opportunists writers and scientists The latter include real gorillas such as Gargantua and Koko and fictional ones notably King Kong and Mighty Joe Young This thoughtful and engaging book helps us understand how our image of gorillas has been both distorted and clarified through culture and science for centuries and how we now control the destiny of these magnificent great apes

**Africa's Past, Our Future** Kathleen R. Smythe, 2015-07-06 An impressive synthesis of current literature in African history making it understandable and relevant Jan Bender Shetler author of *Imagining Serengeti A History of Landscape Memory in Tanzania from Earliest Times to the Present* Africa's Past Our Future engages the history of the African continent through the perspective of global issues such as political instability economic development and climate change Since the past

may offer alternative models for thinking about our collective future this book promotes an appreciation for African social economic and political systems that have endured over the long term and that offer different ways of thinking about a sustainable future Introducing readers to the wide variety of sources from which African history is constructed the book's ten chapters cover human evolution the domestication of plants and animals climate change social organization the slave trade and colonization development and contemporary economics and politics Smythe not only provides an excellent survey of the latest research on Africa's past she also presents a concise and clear argument as to why this history is relevant today African Studies Review Recommended Choice Grapples with the narratives and facts and where they fit in global perspective but why this is all salient and critically meaningful to our lives today in terms of lessons we can learn and ideas we can borrow This is a unique approach not yet available on the market Catherine Cymone Fourshey Susquehanna University

Footprints from Fossils to Gallows Russell H. Tuttle, 2023-06-30 Footprints from Fossils to Gallows Adventures in Paleoanthropology Primatology and Forensic Anthropology University of Chicago professor Russell Tuttle was privileged to study one of the most dramatic and provocative fossil discoveries of the twentieth century 3.66 million year old MA bipedal footprint trails at Laetoli Northern Tanzania This adventure concurrently led to invitations to join a team of barristers and solicitors in defense of two men accused of involvement in a murder in Winnipeg Canada The Queen's Counsel for the prosecution had engaged a certified forensic anthropologist Louise M Robbins 1928-1987 who had worked on a different section of the Laetoli footprint trails before him Her claim to have developed a new science of human footprint analysis for forensic use and wild speculations about the makers of some Laetoli prints prompted him to question her scientific ability and method of footprint analysis Tuttle 1986 and the judgment of fellow forensic anthropologists who supported her testimonials We hope this book might lead to a better understanding of how science can serve our courts by using novel and well established results of scientific research less adversarially with a view to achieve justice for all parties affected by crimes Particularly claims of new forensic methods should be tested thoroughly by peer review outside the courtroom before employment to decide matters of life and death Dr Robbins's decade of quackery is a prime example of how justice might be better served by early thorough scrutiny of a claimant's novel methods and general scientific expertise In addition to relevant literature my main source is correspondence among Drs Robbins Mary Leakey and Michael Day court records of barristers and myself from copies of correspondence in my files dating back to 1980 and Anthropology Archives at the Smithsonian Institution and detailed reports prepared by Dr Robbins and R Tuttle concerning a criminal case in Winnipeg Canada Although I did not set out to write the book as a memoir it quickly became thus as I recalled the experiences that shaped me as a paleoanthropologist Previously my research was on functional morphology history of anthropology and evolutionary biology in the USA and Europe *Routledge Handbook of Human-Animal Studies* Garry Marvin, Susan McHugh, 2014-04-16 Human animal studies is an academic field that has grown exponentially over the past decade It explores the whys hows and
