Between Man And Man Routledge Classics

Judd E. Hollander

Between Man And Man Routledge Classics:

Between Man and Man Martin Buber, 2002 Martin Buber believed that life's deepest truth lies in human relationships In this classic work he puts this belief into practice applying it to the concrete problems of contemporary society The Undiscovered Self C.G. Jung, 2014-12-18 In The Undiscovered Self Jung explains the essence of his teaching for a readership unfamiliar with his ideas He highlights the importance of individual responsibility and freedom in the context of today's mass society and argues that individuals must organize themselves as effectively as the organized mass if they are to resist joining it To help them achieve this he sets out his influential programme for achieving self understanding and self realization The Undiscovered Self is a book that will awaken many individuals to the new life of the self that Jung visualized **Text Me** Jeffrey Schein, 2019-10-24 Common sense tells us that technology can either be a blessing or curse in our lives The assertion flows easily but deceptively from us Beneath the flowing assertion lay many cross currents and much complexity These complexities are named and laid out for individual and group exploration throughout the book They provide mirrors for the reader and groups of readers to discover their own affirmations and arguments with their own digital profiles based on Jewish humanistic religious values The iterative analysis points back to the double entendre in the book's title text me can be a command to engage in the famously quick communication as in receiving a text on our smart phones and text me can also serve as an imperative to explore the wisdom contained in Jewish texts The synergies gaps creative tensions and paradoxes living within this double use of text me permeate the volume Though rooted in Jewish sources the tools of analysis can be used by Christians Muslims and people who describe themselves as spiritual but not religious Indeed the book is an invitation to all who live in the digital age which is to say all of us Commentaries provided by scholars of all three of the western monotheistic faiths highlight this universal dimension **The Value of the Particular: Lessons from Judaism and the Modern Jewish Experience**

Michael Zank, Ingrid Anderson, 2015-04-14 In this tribute to Steven T Katz on the occasion of his seventieth birthday Michael Zank and Ingrid Anderson present sixteen original essays written by senior and junior scholars in comparative religion philosophy of religion modern Judaism and theology after the Holocaust fields of inquiry where Steven Katz made major contributions over the course of his distinguished scholarly career The authors of this volume specialists in Jewish history especially the modern experience and Jewish thought from the Bible to Buber offer theoretical and practical observations on the value of the particular Contributions range from Tim Knepper's reevaluation of the ineffability discourse to the particulars of the Settlement Cookbook examined by Nora Rubel as an American classic

Preaching by Ear Dave McClellan, 2021-09-01 According to Kenton Anderson professor of homiletics at ACTS Seminaries of Trinity Western University this volume represents a powerful tool because it offers a new actually old model of preaching For centuries preaching has been shaped from a literary standpoint i.e. reading writing outlining and displaying sermons But a pre modern method of oral preparation and delivery largely has been forgotten Preaching by Ear hearkens back to an

earlier era when sermons were rooted inside the preacher and moved out in a natural and powerful way

Possibility of Interreligious Dialogue Michael H. Mitias, 2021-04-22 Is dialogue between the major religions of the world possible If it is possible under what conditions In this book Michael H Mitias argues that it is possible provided various conditions are met These conditions include mutual respect mutual understanding and God centeredness First how can a religion that is unusually complex composed of a doctrine founded in a unique divine revelation a leadership class of theologians teachers clergy and administrators and a community across global cultures show uniform respect to another religion How can a complex institution like a religion truly understand another religion Third can the different religions worship the same God if their conceptions of God are based on their unique doctrines Mitias addresses these questions and argues that it is possible for religions to respect and understand one another Further he argues that the different conceptions of God are necessarily founded in a belief in the existence of a transcendent infinite and wise being

Humanizing Health Care Melanie Sears, 2010-09-01 The tenets of Nonviolent Communication are applied to a variety of settings including the workplace the classroom and the home in these booklets on how to resolve conflict peacefully Illustrative exercises sample stories and role playing activities offer the opportunity for self evaluation discovery and application Focusing on the language used in the health care system this manual teaches health care administrators nurses physicians and mental health practitioners how to create lasting positive improvements to patient care and the workplace environment Arguing that a crisis within health care is the inability of many professionals to relate to the personal human dimension of their work this reference teaches how to counteract the negativity that certain labels diagnosis judgments and analyses can cause and shows how to better integrate a culture of compassion empathy and honesty Readers will also learn an effective framework to reduce health care staff burnout and turnover create a culture of mentorship and learning compassionately diffuse problem patients and effectively address systemic barriers to care as they arise

Understanding Phenomenological Reflective Practice in the Social and Ecological Fields Peter Westoby, 2022-07-21 This book introduces social practitioners community development workers social workers organisational change facilitators social ecological cultural and political activists to a phenomenological tradition of reflective practice Critiquing reductionist linear and ossified thinking in the social and ecological fields the book offers an exciting new alternative that is honouring of the uncertainty of all living and therefore emergent social processes Linking phenomenology and Goethe s delicate empiricism the book challenges practitioners to observe and work with living processes As such the book charts two stories two inquiries One personal and the other social The first is the personal phenomenological inquiry into the author s own practice a search to make sense of the nuanced and subtle practice that he brings to the social world The second journey is the inquiry into how this social practice shaped as it is by a confluence of three rivers dialogue and community soul and depth psychology Goethe and delicate activism along with other thinkers on observation and aliveness can be understood in the context of a wider phenomenological reflective practice This second

journey draws on years of experience and research in Brazil South Africa Australia New Zealand and parts of Europe Presenting a philosophical personal and practical analysis it offers a new approach to observation and action while working with aliveness and complexity within the social and ecological fields It will be of interest to all scholars and students of social work and community development and particularly courses on social complexity Touch in the Helping Professions Martin Rovers, Judith Malette, Manal Guirguis-Younger, 2018-04-10 Touch may well be one of the least understood or talked about subjects in the helping professions A discussion on the importance and ethics of positive caring and appropriate touch in professions such as teaching nursing and counselling is long overdue Touch in the Helping Professions delivers just that weaving together scholarly evidence research and clinical practice from a wide range of perspectives encompassing philosophy theology psychology and anthropology to challenge assumptions about the role of touch in the helping professions The contributors to the volume focus not only on the overarching roles of gender age culture and life experience but go beyond to encompass canine assisted therapy touch deprivation sacred objects as well as key ethical considerations The prevailing lack of dialogue due to fear of contravening ethical boundaries has stood in the way of an open and responsible discussion on the use of touch in therapy Touch in the Helping Professions is a welcome and much needed contribution to the field a window onto a fundamental need This book is published in English Cet ouvrage offre un ensemble de données probantes et de résultats cliniques l'appui du toucher dans le développement physique et motionnel Il est structuré selon trois axes la théorie sur le toucher la pratique du toucher dans un contexte de thérapie et les questions éthiques Il aborde la question du rôle du genre de l'âge de la culture et de l'expérience de vie des sujets comme la zoothérapie la privation sensorielle des objets sacrés et des considérations d'ordre éthique Les approches variées philosophie théologie psychologie anthropologie remettent en question les pré-suppositions offrent un contexte historique professionnel et font appel des données primaires Les collaborateurs soutiennent que le toucher sain et non sexuel n'est pas suffisamment enseigné dans le cadre de la formation professionnelle Cette absence de dialogue engendrée par la crainte de dépasser des bornes éthiques fait en sorte qu'une discussion ouverte et responsable sur l'utilisation du toucher dans un cadre thérapeutique ne peut avoir lieu alors même qu'elle contribuerait aux balises théoriques de notre compréhension de cet enjeu fondamental Ce livre est publié en anglais Developing a Narrative Approach to Healthcare Research Viv Martin, 2018-04-19 Patients' perspectives on their experiences of illness and treatment are increasingly valued by the medical profession as a source of information to enhance professional development peer support and the quality of care provided This book explores the development of an in-depth relational and reflexive approach to narrative inquiry drawing on counselling and arts-based approaches to researching accounts of illness The significance of patient stories is explored through narrative research conversations with people whose personal accounts of a range of conditions provide powerful insights into the impact of illness on identity life stories and the experience of patienthood It offers suggestions for using narrative methods in medical education and practice to help

professionals to both attend to patients narratives and reflect on their own stories Developing a Narrative Approach to Healthcare Research will be of interest to educators practitioners students and researchers in healthcare and the social sciences I will recommend this book to my students I hope other healthcare professionals will do the same and that some like me will go on to explore how narrative and story can be harnessed to both explore experience and to teach within healthcare from the Foreword by Karen Forbes I would recommend this book to everybody who is involved in caring for people who suffer serious illness whether they are professionals family or friends I also recommend it to social scientists and health professionals who want to conduct research in ways that capture the richness of peoples lived experience Kim Etherington Professor of Narrative and Life Story Research University of Bristol UK
