Beyond The Blockade New Currents In Cuban Archaeology Caribbean Archaeology And Ethnohistory:

Beyond the Blockade Susan Kepecs, L. Antonio Curet, Gabino La Rosa Corzo, 2010-12-12 Presents a series of essays based on dialogues that have recently opened between Cuban archaeologists and their international colleagues The Oxford Handbook of Caribbean Archaeology William F. Keegan, Corinne L. Hofman, Reniel Rodríguez Ramos, 2013-02-07 The Oxford Handbook of Caribbean Archaeology provides an overview of archaeological investigations in the insular Caribbean understood here as the islands whose shores surround the Caribbean Sea and the islands of the Bahama Archipelago. Though these islands were never isolated from the surrounding mainland, their histories are sufficiently diverse to warrant their identification as distinct areas of culture. Over the past 20 years, Caribbean archaeology has been transformed from a focus on reconstructing culture histories to one on the mobility and exchange expressed in cultural and social dynamics. This Handbook brings together for the first time examples of the best research conducted by scholars from across the globe to address the complexity of the Caribbean past. The Handbook is divided into five sections. Part I, Islands of History and the Precolonial History of the Caribbean Islands, provides an introduction to Caribbean Archaeology and its history. The papers in the following Ethnohistory section address the diversity of cultural practices expressed in the insular Caribbean and develop historical descriptions in concert with archaeological evidence in order to place language, social organization, and the native Taíno and Island Caribs in perspective. The following section, Culture History, provides the latest research on specific geographical locations and cross-cultural engagements from Jamaica and the Bahama archipelago to the Saladoid and the Isthmo-Antillean Engagements. Creating History, the fourth section, includes papers on specific issues related to the field, such as Zooarchaeology, Rock Art, and DNA analysis, among others. The final section, World History, centers on the consequences of European colonization.

The Caribbean Before Columbus William F. Keegan, Corinne L. Hofman, 2017 The Caribbean before Columbus is a new synthesis of the region's insular history based on the authors' 55 years of research in the Bahamas, Lesser, and Greater Antilles. The presentation operates on multiple scales, and individual sites highlight specific issues. For the first time, complete histories are elucidated through an emphasis on cultural diversity. *Real, Recent, Or Replica* Joanna Ostapkowicz, Jonathan A. Hanna, 2021-04-20 Examines the largely unexplored topics in Caribbean archaeology of looting of heritage sites, artifact fraud, and illicit trade of archaeological materials. Material Encounters and Indigenous Transformations in the Early Colonial Americas, 2019-04-09 Material Encounters and Indigenous Transformations in the Early Colonial Americas brings together 15 archaeological case studies that offer new perspectives on colonial period interactions in the Caribbean and surrounding areas through a specific focus on material culture and indigenous agency.
