BEYOND CAPITALISM?

**THE FUTURE OF
RADICAL POLITICS**

Beyond Capitalism The Future Of Radical Politics

Clifford Lane

Beyond Capitalism The Future Of Radical Politics:

Beyond Left and Right Anthony Giddens, 2013-04-29 How should one understand the nature and possibilities of political radicalism today The political radical is normally thought of as someone who stands on the left opposing backward looking conservatism In the present day however the left has turned defensive while the right has become radical advocating the freeplay of market forces no matter what obstacles of tradition or custom stand in their way What explains such a curious twist of perspective In answering this question Giddens develops a new framework for radical politics drawing freely on what he calls philosophic conservatism but applying this outlook in the service of values normally associated with the Left The ecological crisis is at the core of this analysis but is understood by Giddens in an unconventional way as a response to a world in which modernity has run up against its limits as a social and moral order The end of nature as an entity existing independently of human intervention and the end of tradition combined with the impact of globalization are the forces which now have to be confronted made use of and coped with This book provides a powerful interpretation of the rise of fundamentalism of democracy the persistence of gender divisions and the question of a normative political theory of violence It will be essential reading for anyone seeking a novel approach to the political challenges which we face at the turn of the twenty first century

Beyond Capitalism? Simon Hardy, Luke Cooper, 2013-03-11 An in depth examination into the social nature of the austerity crisis and how we can move Beyond Capitalism

Citizenship, Identity and Social Movements in the New Hong Kong Wai-man Lam, Luke Cooper, 2017-09-11 Hong Kong's Umbrella Revolution has been widely regarded as a watershed moment in the polity's post 1997 history While public protest has long been a routine part of Hong Kong's political culture the preparedness of large numbers of citizens to participate in civil disobedience represented a new moment for Hong Kong society reflecting both a very high level of politicisation and a deteriorating relationship with Beijing The transformative processes underpinning the dramatic events of autumn 2014 have a wide relevance to scholarly debates on Hong Kong China and the changing contours of world politics today This book provides an accessible entry point into the political and social cleavages that underpinned and were expressed through the Umbrella Movement A key focus is the societal context and issues that have led to growth in a Hong Kong identity and how this became highly politically charged during the Umbrella Movement It is widely recognised that political and ethnic identity has become a key cleavage in Hong Kong society But there is little agreement amongst citizens about what it means to be Hong Konger today or whether this identity is compatible or conflicting with being Chinese The book locates these identity cleavages within their historical context and uses a range of theories to understand these processes including theories of nationalism social identity ethnic conflict nativism and cosmopolitanism This theoretical plurality allows the reader to see the new localism in its full diversity and complexity and to reflect on the evolving nature of Hong Kong's relationship with Mainland China

Unfinished Leninism Paul Le Blanc, 2014-06-17 A stimulating collection of essays on the revolutionary socialist Vladimir Lenin that

survey fierce controversies over his life and ideas

Against Austerity Richard Seymour, 2014-03-19 Five years into capitalism's deepest crisis which has led to cuts and economic pain across the world *Against Austerity* addresses a puzzling aspect of the current conjuncture why are the rich still getting away with it Why is protest so ephemeral Why does the left appear to be marginal to political life In an analysis which challenges our understanding of capitalism class and ideology Richard Seymour shows how austerity is just one part of a wider elite plan to radically re-engineer society and everyday life in the interests of profit consumerism and speculative finance But *Against Austerity* is not a gospel of despair Seymour argues that once we turn to face the headwinds of this new reality dispensing with reassuring dogmas we can forge new collective resistance and alternatives to the current system Following Brecht *Against Austerity* argues that the good old things are over it's time to confront the bad new ones

Radical Political Theology Clayton Crockett, 2013-10-01 In the 1960s the strict opposition between the religious and the secular began to break down blurring the distinction between political philosophy and political theology This collapse contributed to the decline of modern liberalism which supported a neutral value free space for capitalism It also deeply unsettled political religious and philosophical realms forced to confront the conceptual stakes of a return to religion Gamely intervening in a contest that defies simple resolutions Clayton Crockett conceives of the postmodern convergence of the secular and the religious as a basis for emancipatory political thought Engaging themes of sovereignty democracy potentiality law and event from a religious and political point of view Crockett articulates a theological vision that responds to our contemporary world and its theological realities Specifically he claims we should think about God and the state in terms of potentiality rather than sovereign power Deploying new concepts such as Slavoj Žižek's idea of parallax and Catherine Malabou's notion of plasticity his argument engages with debates over the nature and status of religion ideology and messianism Tangling with the work of Derrida Deleuze Spinoza Antonio Negri Giorgio Agamben Alain Badiou John D Caputo and Catherine Keller Crockett concludes with a reconsideration of democracy as a form of political thought and religious practice underscoring its ties to modern liberal capitalism while also envisioning a more authentic democracy unconstrained by those ties

Future on Fire David Camfield, 2022-10-25T00:00:00Z Coming in October 2022 Climate change is already affecting millions of people Governments talk about taking action to limit global heating to 2 degrees Celsius above pre industrial levels but the greenhouse gas emissions allowed by their policies have the Earth on track to heating far more than that by the end of the century a level of heating that will have truly disastrous consequences Visionary plans for how to slash emissions and make society better at the same time abound including various Green New Deals But how can we make the changes that are so urgently needed *Future on Fire* argues that a just transition from fossil fuels and other drivers of climate change will not be delivered by businesspeople or politicians that support the status quo Nor will electing green left leaders be enough to overcome the opposition of capitalists and state bureaucrats Only the power of disruptive mass social movements has the potential to force governments to make the changes we need so

supporters of climate justice should commit to building them Confronting the question what if heating above 2 degrees becomes unavoidable and refusing to despair David Camfield argues that even a ravaged planet is worth fighting for and that ultimately the only solution to the ecological crisis created by capitalism is a transition to ecosocialism *Liberal Bolshevism* Alexander G. Markovsky, 2016-07-12 Written by a Soviet migr and scholar of Marxism the book begins with the author s recounting of the end of the Cold War Despite the common perception that democracy defeated communism the author presents evidence that the Democratic Party has adopted Marxism in a new philosophy he calls Liberal Bolshevism Mr Markovsky trucks the origins of Liberal Bolshevism back to the policies of Woodrow Wilson and FDR and chronicles the transformation of the Democratic Party into the Social Democratic Party Through the prism of Marxism the author traces the rhythms and patterns of the toxic amalgamation of liberalism and socialism from Lenin to Obama and binds together the Democratic Party s policies into a Marxist socialist cause that American Social Democrats just like their Soviet predecessors are committed to achieving at all costs Herein the reader will find a reassessment of accepted postulates exposing the deeply rooted racism and anti Semitism of the Democratic Party The book also challenges vested views of socialism and capitalism Overall the work is intended as a dissident course of economics and political education It is explosive and insightful

Future Positive Michael Edwards, 2013-06-17 An optimistic assessment of the prospects for a new international order acting as a counter blast to global pessimism The text explains how the international system operates the pressures it faces and the changes it must undergo and offers concrete ideas to re frame international relations foreign aid and humanitarian intervention without using jargon or simplistic judgements **Higher education in a globalising world** Peter Mayo, 2019-07-04 This book focuses on current policy discourse in Higher Education with special reference to Europe It discusses globalisation Lifelong Learning the EU s Higher Education discourse this discourse s regional ramifications and alternative practices in Higher Education from both the minority and majority worlds with their different learning traditions and epistemologies It argues that these alternative practices could well provide the germs for the shape of a public good oriented Higher Education for the future It theoretically expounds on important elements to consider when engaging Higher Education and communities discussing the nature of the term community itself Special reference is accorded to the difference that lies at the core of these ever changing communities It then provides an analysis of an on the ground project in University community engagement before suggesting signposts for further action at the level of policy and provision

When people should go to the ebook stores, search establishment by shop, shelf by shelf, it is essentially problematic. This is why we offer the book compilations in this website. It will extremely ease you to look guide **Beyond Capitalism The Future Of Radical Politics** as you such as.

By searching the title, publisher, or authors of guide you in fact want, you can discover them rapidly. In the house, workplace, or perhaps in your method can be all best area within net connections.
