Tired, hopeless, stretched too thin, a little scared about the future, a sense that something important is missing. Modern life is unbelievably stressful, and it comes at us from all sides. But there's also an upside to the modern world. In our age of better information, technology, nutrition, and healthcare, we're using our smarts to develop a science that can help us feel happier and more connected to our lives, and it really does work. In *Thriving Mind*, Dr. Jenny Brockis draws on deep research and 30 years of helping people solve persistent and serious problems to provide science-based strategies for overcoming them, as well as the habits to help avoid them in the future. Walking you through common issues such as loneliness, stress, relationship breakdown, loss of social connection, and mental health issues, Dr. Brockis shows that there are practical ways to alleviate or even banish these difficulties and to reclaim a sense of meaning and vitality you might not have felt in years. Discover how happiness works and how to engage your full spectrum of emotions and mindfulness to achieve it. Harness your natural biology; it's worked for thousands of years for better energy, resilience, and mood. Connect with your superpower of social and enrich your relationships with compassion, respect, and courage.
