Bruce Jenner John Hopkins:

Common Sense David Johnson, 2023-04-25 Would our country's Founders choose to live here Wouldn't they be outraged by what is happening 31 trillion of national debt will tax future generations without their representation An army of 87 000 IRS bureaucrats will harass our people A surge of illegal immigrants passing through undefended borders will burden our society without its assent Wouldn't our Founders be shocked by our lack of common sense Men can give birth Defunding police will reduce crime Men can marry men and women marry women The Founders declared their independence from Great Britain They reasoned why should a small island rule over a vast continent Today we must declare our independence from the Left Why should a small group of leftist elitists rule over a vast number of conservative Christians This book pulls together all the outrages the Left has committed against us twenty seven grievances in all the same number as in the original Declaration of Independence For each grievance the book provides three easy to grasp points explains the violation of common sense and Biblical truth and reveals the consequences to our country and the organizations you can join to fight back Consider an army that is facing encirclement and annihilation Would they go about their daily routines digging latrines and cleaning their boots and just hope the enemy goes away Well that army is us Should we go about our daily routines and just hope the totalitarian Left goes away No It is time to wake up It is time to unite and fight back peacefully and lawfully Time is short so join the fight

Ellwanger,2020-02-25 Western culture is in a moment when wholly new kinds of personal transformations are possible but authentic transformation requires both personal testimony and public recognition In this book Adam Ellwanger takes a distinctly rhetorical approach to analyzing how the personal and the public relate to an individual s transformation and develops a new vocabulary that enables a critical assessment of the concept of authenticity The concept of metanoia is central to this project Charting the history of metanoia from its original use in the classical tradition to its adoption by early Christians as a term for religious conversion Ellwanger shows that metanoia involves a change within a person that results in a truer version of him or herself a change in character or ethos He then applies this theory to our contemporary moment finding that metanoia provides unique insight into modern forms of self transformation Drawing on ancient and medieval sources including Thucydides Plato Paul the Apostle and Augustine as well as contemporary discourses of self transformation such as the public testimonies of Caitlyn Jenner and Rachel Dolezal Ellwanger elucidates the role of language in signifying and authenticating identity Timely and original Ellwanger s study formulates a transhistorical theory of personal transformation that will be of interest to scholars working in social theory philosophy rhetoric and the history of Christianity

Metaphysics and Gender: The Normative Art of Nature and Its Human Imitations Michele Schumacher,2023-03-07 The emergent science of transgenderism and related philosophies of gender propose a full scale inversion of the understanding of God man and the created order articulated in classical metaphysics undermining and parodying both the causality and ontology voiced by Genesis 1 27 God created man in His own image male and female He created them Whether through subversive performative identity or by surgical sex change the divinely made human person is now threatened with abolition and replacement by the self made man and the man made woman In *Metaphysics and Gender* Michele M Schumacher offers a corrective to this distorted and distorting outlook calling for the recovery of an anthropological vision rooted in recognition of the normative divine art of nature and of the likeness and far greater unlikeness between divine and human causality Surveying contemporary transgender trends Schumacher identifies and excavates their conceptual and ideological foundations in the gender theory of Judith Butler the existentialist feminism of Simone de Beauvoir and the atheistic existentialism of Jean Paul Sartre To the erroneous philosophical presuppositions of these thinkers Schumacher contrasts the metaphysically grounded thought of Aristotle and Thomas Aquinas advancing their positive account of the good of creation and of the meaning of ethical norms human freedom and natural inclinations and embodiment and mounting a timely and
