Between Parentheses Essays Articles And Speeches 1998 2003:

Between Parentheses Roberto Bolaño, 2014-05-27 Now in paperback the sole collection of the great Chilean writer's essays Borges and Kafka, Bolaño and Bloom Juan E. De Castro, 2022-02-15 At a time in which many in the United States see Spanish America as a distinct and for some threatening culture clearly differentiated from that of Europe and the US it may be of use to look at the works of some of the most representative and celebrated writers from the region to see how they imagined their relationship to Western culture and literature In fact while authors across stylistic and political divides like Gabriela Mistral Jorge Luis Borges or Gabriel García Márquez see their work as being framed within the confines of a globalized Western literary tradition their relationship rather than epigonal is often subversive Borges and Kafka Bolaño and Bloom is a parsing not simply of these authors reactions to a canon but of the notion of canon writ large and the inequities and erasures therein It concludes with a look at the testimonial and autobiographical writings of Rigoberta Menchú and Lurgio Gavilán who arguably represent the trajectory of Indigenous testimonial and autobiographical writing during the last forty years noting how their texts represent alternative ways of relating to national and on occasion Western cultures This study is a new attempt to map writers diverse ways of thinking about locality and universality from within and without what is known as the canon

Writing the Mind Hannah Walser, 2022-07-19 Novels are often said to help us understand how others think especially when those others are profoundly different from us When interpreting a character's behavior readers are believed to make use of Theory of Mind the general human capacity to attribute mental states to other people In many well known nineteenth century American novels however characters behave in ways that are opaque to readers other characters and even themselves undermining efforts to explain their actions in terms of mental states like beliefs and intentions Writing the Mind dives into these unintelligible moments to map the weaknesses of Theory of Mind and explore alternative frameworks for interpreting behavior Through readings of authors such as Charles Brockden Brown Herman Melville Martin Delany Harriet Beecher Stowe Charles Chesnutt and Mark Twain Hannah Walser explains how experimental models of cognition lead to some of the strangest formal features of canonical American texts These authors attempts to found social life on something other than mental states not only invite us to revise our assumptions about the centrality of mind reading and empathy to the novel as a form they can also help us understand more contemporary concepts in social cognition including gaslighting and learned helplessness with more conceptual rigor and historical depth
