Beyond Terror And Martyrdom The Future Of The Middle East:

Beyond Terror and Martyrdom Gilles Kepel, 2009-07-01 Kepel urges us to escape the ideological quagmire of terrorism and martyrdom and explore the terms of a new and constructive dialogue between Islam and the West This book sounds the alarm to the West and to Islam that both of these exhausted narratives are bankrupt neither productive of democratic change in the Middle East nor of unity in Islam

Islam and Warfare Onder Bakircioglu, 2014-10-30 The question of how Islamic law regulates the notions of just recourse to and just conduct in war has long been the topic of heated controversy and is often subject to oversimplification in scholarship and journalism This book traces the rationale for aggression within the Islamic tradition and assesses the meaning and evolution of the contentious concept of jihad The book reveals that there has never been a unified position on what Islamic warfare tangibly entails due to the complexity of relevant sources and discordant historical dynamics that have shaped the contours of jihad Onder Bakircioglu advocates a dynamic reading of Islamic law and military tradition one which prioritises the demands of contemporary international relations and considers the meaning and application of jihad as contingent on the socio political forces of each historical epoch This book will be of great interest to scholars and students of international law Islamic law war and security studies and the law of armed conflict

Salafi-Jihadism Shiraz Maher, 2016-11-01 No topic has captured the public imagination of late quite so dramatically as the specter of global jihadism While much has been said about the way jihadists behave their ideology remains poorly understood As the Levant has imploded and millenarian radicals claim to have revived a Caliphate based on the teachings of the Prophet Mohammed the need for a nuanced and accurate understanding of jihadist beliefs has never been greater Shiraz Maher charts the intellectual underpinnings of salafi jihadism from its origins in the mountains of the Hindu Kush to the jihadist insurgencies of the 1990s and the 9 11 wars What emerges is the story of a pragmatic but resilient warrior doctrine that often struggles as so many utopian ideologies do to consolidate the idealism of theory with the reality of practice His ground breaking introduction to salafi jihadism recalibrates our understanding of the ideas underpinning one of the most destructive political philosophies of our time by assessing classical works from Islamic antiquity alongside those of contemporary ideologues Packed with refreshing and provocative insights Maher explains how war and insecurity engendered one of the most significant socio religious movements of the modern era

Out of Ashes Konrad H. Jarausch, 2016-08-29 A sweeping history of twentieth century Europe that examines its unprecedented destruction and abiding promise A sweeping history of twentieth century Europe Out of Ashes tells the story of an era of unparalleled violence and barbarity yet also of humanity prosperity and promise Konrad Jarausch describes how the European nations emerged from the nineteenth century with high hopes for continued material progress and proud of their imperial command over the globe only to become embroiled in the bloodshed of World War I which brought an end to their optimism and gave rise to competing democratic communist and fascist ideologies He shows how the 1920s witnessed renewed hope and a

flourishing of modernist art and literature but how the decade ended in economic collapse and gave rise to a second more devastating world war and genocide on an unprecedented scale Jarausch further explores how Western Europe surprisingly recovered due to American help and political integration Finally he examines how the Cold War pushed the divided continent to the brink of nuclear annihilation and how the unforeseen triumph of liberal capitalism came to be threatened by Islamic fundamentalism global economic crisis and an uncertain future A gripping narrative Out of Ashes explores the paradox of the European encounter with modernity in the twentieth century shedding new light on why it led to cataclysm inhumanity and self destruction but also social justice democracy and peace
