Beyond Capital Toward A Theory Of Transition

Michael Lebowitz

Beyond Capital Toward A Theory Of Transition:

Beyond Capital István Mészáros, 2018-11-01 Not only profound in its analysis but also so passionately inspired by sympathy for the downtrodden and their struggle for liberation Daniel Singer *The Nation* This is an important book heavy in size and tone It belongs in every serious library *Choice* *Beyond Capital*, 2024 *Beyond Capital* István Mészáros (filozófus), 1995 **Beyond Leviathan** István Mészáros, 2022-02-22 A field defining masterwork this posthumous publication maps the evolution of the idea of the state from ancient Greece to today István Mészáros was one of the greatest political theorists of the twentieth century Left unfinished at the time of his death *Beyond Leviathan* is written on the magisterial scale of his previous book *Beyond Capital* and meant to complement that work It focuses on the transcendence of the state along with the transcendence of capital and alienated labor while traversing the history of political theory from Plato to the present Aristotle More Machiavelli and Vico are only a few of the thinkers discussed in depth The larger objective of this work is no less than to develop a full edged critique of the state in the Marxian tradition and set against the critique of capital Not only does it provide for the first time an all embracing Marxian theory of the state it gives new political meaning to the notion of the withering away of the state In his definitive seminal work Mészáros seeks to illuminate the political preconditions for a society of substantive equality and substantive democracy **Commune Or Nothing!** Chris Gilbert, 2023-10 Gilbert's account gives readers a front row seat on the country's communal movement as he chronicles the efforts of grassroots initiatives and gives voice to the communards living and working in communes such as El Panal El Maizal Che Guevara and Luisa Caceres He blends these firsthand accounts of communal construction with theoretical reflections and historical insights The central story of the book is how Venezuelan communes bring people together to democratically determine their ways of living and working thus generating a new non alienated social metabolism that the communes also work to extend to the whole society Along the way readers learn how Venezuela's communal project draws inspiration from advanced Marxist theory including the innovative work of István Mészáros and derives from Indigenous and Afro Venezuelan traditions of communal self governance **Beyond Capital** Mészáros István, 2000 **The Socialist Alternative** Michael Lebowitz, 2010-07-01 A good society Michael Lebowitz tells us is one that permits the full development of human potential In this slim lucid and insightful book he argues persuasively that such a society is possible That capitalism fails his definition of a good society is evident from even a cursory examination of its main features What comes first in capitalism is not human development but privately accumulated profits by a tiny minority of the population When there is a conflict between profits and human development profits take precedence Just ask the unemployed those toiling at dead end jobs the sick and infirm the poor and the imprisoned But if not capitalism what Lebowitz is also critical of those societies that have proclaimed their socialism such as the former Soviet Union and China While their systems were not capitalist and were capable of achieving some of what is necessary for the development of human potential they were not good societies A good

society as Lebowitz defines it must be marked by three characteristics social ownership of the means of production social production controlled by workers and satisfaction of communal needs and purposes Lebowitz shows how these characteristics interact with and reinforce one another and asks how they can be developed to the point where they occur more or less automatically that is become both a society s premises and outcomes He also offers fascinating insights into matters such as the nature of wealth the illegitimacy of profits the inadequacies of worker controlled enterprises the division of labor and much more

The End of Western Hegemonies? Marie-Josée Lavallée,2022 In the face of recent trends like growing authoritarianism and xenophobic nationalism the rise of the Far Right the explosion of economic and social inequalities heightened geopolitical contest and global capitalism s endless crisis and the impacts of shocks like the Covid 19 pandemic discourses about the decline of the West no more look like mere ruminations of a handful of cultural depressives and politically disillusioned they sound increasingly realistic This volume addresses this issue by mapping and analyzing the forms mechanisms strategies and effects in the past the present and the future of Western hegemonies namely asymmetrical relations that bring advantages or at least secure the superiority of Western state and non state actors in politics economics and culture broadly understood Over the past decades and centuries Westerners never ceased claiming supremacy in all these spheres A host of these relations were initiated through colonialism and imperialism and perpetuated through informal imperialism but there are other channels political interference inequalities between countries and attempts at affirming the supremacy of the so called Western way of life was also secured through the military might and economic power of great Western actors This book explores sites of Western hegemonies and contributes to understanding the mechanisms through which international hierarchies are formed and maintained Bringing together the research of scholars from various fields in the humanities and social sciences political science international relations political philosophy sociology history postcolonial studies criminology and linguistics this volume develops a multidisciplinary outlook on the issue of Western hegemonies that allows uncovering resemblances between various forms of asymmetrical relations and their mechanisms

Totalitarian Capitalism and Beyond Giōrgos K. Liodakēs,2010 Anchored in contemporary debates on capitalism and political economy this study reconsiders the major trends which are shaping a new stage of capitalism It constructs a politico economic approach on contemporary capitalism from within a classical Marxist framework of political economy

Moving Beyond Capitalism Cliff DuRand,2016-09-26 The book speaks to the widespread quest for concrete alternative ways forward beyond capitalism in the face of the prevailing corporatocracy and a capitalist system in crisis It examines a number of institutions and practices now being built in the nooks and crannies of present societies and that point beyond capitalism toward a more equal participatory and democratic society institutions such as cooperatives public banks the commons economic democracy This seminal collection of critical studies draws on academic and activist voices from the U S and Canada Mexico Cuba and Argentina and from a variety of theoretical political perspectives Marxism anarchism feminism and Zapatismo

This book delves into Beyond Capital Toward A Theory Of Transition. Beyond Capital Toward A Theory Of Transition is an essential topic that must be grasped by everyone, from students and scholars to the general public. This book will furnish comprehensive and in-depth insights into Beyond Capital Toward A Theory Of Transition, encompassing both the fundamentals and more intricate discussions.

1. The book is structured into several chapters, namely:
 - Chapter 1: Introduction to Beyond Capital Toward A Theory Of Transition
 - Chapter 2: Essential Elements of Beyond Capital Toward A Theory Of Transition
 - Chapter 3: Beyond Capital Toward A Theory Of Transition in Everyday Life
 - Chapter 4: Beyond Capital Toward A Theory Of Transition in Specific Contexts
 - Chapter 5: Conclusion
 2. In chapter 1, this book will provide an overview of Beyond Capital Toward A Theory Of Transition. The first chapter will explore what Beyond Capital Toward A Theory Of Transition is, why Beyond Capital Toward A Theory Of Transition is vital, and how to effectively learn about Beyond Capital Toward A Theory Of Transition.
 3. In chapter 2, this book will delve into the foundational concepts of Beyond Capital Toward A Theory Of Transition. This chapter will elucidate the essential principles that must be understood to grasp Beyond Capital Toward A Theory Of Transition in its entirety.
 4. In chapter 3, the author will examine the practical applications of Beyond Capital Toward A Theory Of Transition in daily life. This chapter will showcase real-world examples of how Beyond Capital Toward A Theory Of Transition can be effectively utilized in everyday scenarios.
 5. In chapter 4, this book will scrutinize the relevance of Beyond Capital Toward A Theory Of Transition in specific contexts. This chapter will explore how Beyond Capital Toward A Theory Of Transition is applied in specialized fields, such as education, business, and technology.
 6. In chapter 5, this book will draw a conclusion about Beyond Capital Toward A Theory Of Transition. This chapter will summarize the key points that have been discussed throughout the book.
- The book is crafted in an easy-to-understand language and is complemented by engaging illustrations. This book is highly recommended for anyone seeking to gain a comprehensive understanding of Beyond Capital Toward A Theory Of Transition.
