The Art and Science of Compassionate Care: A Practical Guide

Andreas Samoutis, George Samoutis, Neophytos Stylianou, Andreas Anastasiou, Christos Lionis, 2023-03-12. This book provides a practical guide on the art and science of compassionate care in an era of healthcare crisis due to the COVID 19 pandemic that is inflicting long lasting financial and psychosocial trauma on an unprecedented scale. A new approach to compassionate care is presented based on the overarching concepts of empathy, person and family centeredness, therapeutic relationship, kindness, gratitude, spirituality, communication skills, shared decision making, positive psychology, adversity, activated development, self care, compassion fatigue, spirituality which are more than ever critical in successfully managing the pandemic adversity in front of us. This book draws on clinical experience, educational activities and evidence based knowledge from academic physicians, primary, secondary and tertiary care nurses, psychologists, health economists, healthcare managers, health policymakers, medical professionals, students and patients. It provides skills and knowledge that can be implemented in daily clinical practice based on all levels of healthcare on a whole person approach. An array of clinical cases, patient journeys, published evidence and practical experience is combined to deliver in a practical way unique guidance and advice. The target audience is all healthcare professionals, health policymakers, healthcare managers and patient associations. This approach of Compassionate Care is of great importance and can save lives and money in these unprecedented times of global healthcare care system challenges.

Introduction to Global Health Promotion Rick S. Zimmerman, Ralph J. DiClemente, Jon K.

Andrus, Everold N. Hosein, 2016-05-03. Introduction to Global Health Promotion addresses a breadth and depth of public

health topics that students and emerging professionals in the field must understand as the world's burden of disease changes with non-communicable diseases on the rise in low and middle income countries as their middle class populations grow. Now more than ever we need to provide health advocacy and intervention to prevent, predict and address emerging global health issues. This new text from the Society for Public Health Education (SOPHE) prepares readers with thorough and thoughtful chapters on global health promotion theories, best practices and perspectives on the future of the field from the individual to the global level. The world's biggest health care challenges including HIV, malaria, heart disease, smoking and violence among others are explored in detail in *Introduction to Global Health Promotion*. The state of the science including the latest empirical data is distilled into 19 chapters that update readers on the complex issues surrounding a variety of illnesses and conditions and disease epidemics and individual, social, institutional and governmental barriers to preventing them. Expert authors bring to the fore human rights issues, new uses of technology and practical application of theory. These perspectives along with the book's multidisciplinary approach serve to create a well-rounded understanding of global health today. Ewles and Simnett's Promoting Health: A Practical Guide - E-Book Angela Scriven, Gareth Morgan, James Woodall, 2023-08-09. The eighth edition of this seminal guide is designed to support public health practitioners in keeping up to date amid the rapidly changing complex challenges and contexts facing population health in the twenty-first century. Suitable for both undergraduates and postgraduates across a range of professions, the *Practical Guide* provides theories, principles and competencies for effective health promotion in multiple settings. The book is organised into three parts covering an overview of the public health landscape, the essentials of planning and management and how to develop capabilities across a range of activities. The text has been fully updated to examine new issues facing public health including restructuring of the UK sector post-European Union, COVID-19 and its public health impact and legacy, economic and cost of living influences on population health and the role of the internet and social media misinformation. Includes promotion of healthier living, working with communities and effective communication. Outlines new research on the comparative effectiveness of different approaches to health promotion and public health practice. Explores the increasing influence of the internet both in terms of its use for health promotion and its negative influence on wellbeing and health. Describes changes to the structure and organisation of public health in the UK including the latest policies and national strategies. Accessible writing style makes it easy to learn and remember. Case studies bring theory to life. Practice points help readers structure study. Latest evidence on the response to the COVID-19 pandemic, a permeating theme throughout the book. All policy sections updated to reflect current policy frameworks and agendas. New health data plus recent research on the comparative effectiveness of different approaches to health promotion and public health practice. All case studies replaced with current scenarios, more global examples of public health and health promotion action. Fully updated references and practice examples.
