Jarczewski, 2020-01-15 This book examines reality using verbs in their real time which like a segment of clock time runs from the occurrence of the cause to the inevitable effect As argued here errors in our decisions often result from a noun approach to the problem A good decision depends on whether it is made on the basis of real premises and whether the decision maker is able to define what is good These two eternal issues truth and goodness are the subject of inquiry here The findings presented in this book invalidate the paradigm of noun philosophy of the 20th century It will appeal to philosophers as well

as managers and decision makers
