Aquinas's Summa Theologiae Critical Essays On The Classics Series:

Aquinas's Summa Theologiae Brian Davies, 2006 Thomas Aquinas authored many works but his greatest achievement is undoubtedly the Summa Theologiae which presents his most mature thinking and the best introduction to his philosophical and theological ideas Distinguishing itself from other secondary works on Aquinas this volume focuses solely on the Summa with essays by some of the best Aquinas scholars of the last half decade It offers a solid introduction to one of the landmarks of Western thinking Back cover *Aquinas's Summa Theologiae* Brian Davies, 2005-11-30 Thomas Aquinas 1224-6-1274 was first and foremost a Christian theologian Yet he was also one of the greatest philosophers of the Middle Ages Drawing on classical authors and incorporating ideas from Jewish and Arab sources he came to offer a rounded and lasting account of the origin of the universe and of the things to be found within it especially human beings Aquinas wrote many works but his greatest achievement is undoubtedly the Summa Theologiae This presents his most mature thinking and is the best introduction to his philosophical and theological ideas Few secondary books on Aquinas focus solely on the Summa but the present volume does just that Including work by some of the best Aquinas scholars of the last half decade it provides a solid introduction to one of the landmarks of western thinking **Aquinas's Summa Theologiae** Jeffrey Hause, 2018-03-15 Alone among Thomas Aquinas works the Summa Theologiae contains well developed and integrated discussions of metaphysics ethics law human action and the divine nature The essays in this volume by scholars representing varied approaches to the study of Aquinas offer thorough cutting edge expositions and analyses of these topics and show how they relate to Aquinas larger system of thought The volume also examines the reception of the Summa Theologiae from the thirteenth century to the present day showing how scholars have understood and misunderstood this key text and how even after seven centuries of interpretation we still have much to learn from it Detailed and accessible this book will be highly important for scholars and students of medieval philosophy and theology *Nietzsche's On the Genealogy of Morals* Christa Davis Acampora, 2006-09-08 This astonishingly rich volume collects the work of an international group of scholars including some of the best known in academia Experts in ethics epistemology philosophy of mind political theory aesthetics history critical theory and hermeneutics bring to light the best philosophical scholarship what is arguably Friedrich Nietzsche's most rewarding but most challenging text Including essays that were commissioned specifically for the volume as well as essays revised and edited by their authors this collection showcases definitive works that have shaped Nietzsche studies alongside new works of interest to students and experts alike Sections are devoted to the topic of genealogy generally numerous essays on specific passages applications of genealogy in later thinkers and the import of Nietzsche's Genealogy in contemporary politics ethics and aesthetics A lengthy introduction annotated bibliography and index make this an extremely useful guide for the classroom and advanced research *Classics of Western Philosophy* Steven M. Cahn, 2012-10-01 The Eighth Edition of Steven M Cahn's *Classics of Western Philosophy* offers the same exacting standard of editing and translation that made

earlier editions of this anthology the most highly valued and widely used volume of its kind But the Eighth Edition offers exciting new content as well Plato's Laches complete new selections from Aristotle's Nicomachean Ethics on courage Descartes Discourse on Method complete all previously omitted sections of Berkeley's A Treatise Concerning the Principles of Human Knowledge Kant's Prolegomena to Any Future Metaphysics complete These additions with no offsetting deletion of content of the Seventh Edition yield an anthology of unrivaled versatility the only one to offer the complete texts of both Descartes Discourse on Method and Meditations on First Philosophy both Berkeley's A Treatise Concerning the Principles of Human Knowledge and Three Dialogues between Hylas and Philonous Kant's Prolegomena to Any Future Metaphysics and selections from the Critique of Pure Reason *Wittgenstein's Philosophical Investigations* Meredith Williams, 2007 Ludwig Wittgenstein's Philosophical Investigations is one of the great works of 20th Century philosophy destined to join the philosophical canon Like all great works of philosophy it poses new problems while creating new forms of argument and persuasion But unlike most contemporary philosophy texts it is not structured by chapter and section headings but rather by numbered passages evidence of Wittgenstein's distinctive style and profound originality This anthology draws together in one volume several recent essays that help to make his problems and arguments more accessible The essays are grouped into four sections that roughly correspond to the development that one finds in the Investigations These sections are reference and meaning rules and their application the interiority of mind and the alleged uses of private languages and necessity and grammar Both readers who are new to the Investigations as well as those who are familiar with Wittgenstein's work should find these essays illuminating and engaging Augustine's Confessions William E. Mann, 2006-03-09 The philosopher in the crib William E Mann Word learning and theory of mind Paul Bloom Augustine on the teacher within Gareth B Matthews Petit larceny the beginning of all sin Augustine's theft of the pears Scott MacDonald Augustine on evil and original sin William E Mann The divine nature Scott MacDonald Suffering love Nicholas Wolterstorff Augustine's griefs Paul Helm God's speaking and Augustine's conversion Nicholas Wolterstorff On being morally responsible in a dream Ishtiyaque Haji The book of memory Garry Wills Time mysticism and creation Richard Sorabji **Badiou and Theology** Frederiek Depoortere, 2009-11-17 Depoortere traces the links between French philosopher Alain Badiou and Pauline theology in the face of Nietzsche's proclamation of the death of God Thomas Aquinas: Basic Philosophical Writing Thomas Aquinas, 2018-10-30 This volume contains new translations of the essential philosophical writings of Thomas Aquinas from the Summa Theologiae and The Principles of Nature The included texts represent the breadth of Aquinas's thought addressing causality the fundamental principles of nature the existence of God how God can be known how language can be used to describe God human nature including the nature of the soul free will and epistemology happiness ethics and natural law The goal of these translations is twofold to allow Aquinas to speak for himself but also to make his thought accessible to the contemporary reader without the burden of unnecessary adherence to convention A thorough introduction to Aquinas

and his ideas is included as is a series of useful appendices connecting Aquinas's arguments to those of Anselm Scotus Ockham and others *The Oxford Handbook of Aquinas* Brian Davies, Eleonore Stump, 2012-01-25 This volume presents an introduction to Aquinas and a guide to his thinking on almost all the major topics on which he wrote The book begins with an account of Aquinas's life and the historical context of his thought The subsequent sections address topics that Aquinas himself discussed The final sections of the volume address the development of Aquinas's thought and its historical influence
