The Medieval Hospital and Medical Practice Barbara S. Bowers, 2017-05-15 Using an innovative approach to evidence for the medieval hospital and medical practice this collection of essays presents new research by leading international scholars in creating a holistic look at the hospital as an environment within a social and intellectual context The research presented creates insights into practice medicines administration foundation regulation patronage theory and spirituality Looking at differing models of hospital administration between 13th century France and Spain social context is explored Seen from the perspective of the history of Knights of the Order of Saint Lazarus and Order of the Temple hospital and practice have a different emphasis Extant medieval hospitals at Tonnerre and Winchester become the basis for exploring form and function in relation to health theory spiritual and non spiritual as well as the influence of patronage and social context In the case of the Ospedale Maggiore in Milan this line of argument is taken further to demonstrate aspects of the building based on a concept of epidemiology Evidence for the practice of medicine presented in these essays comes from a variety of sources and approaches such as remedy books medical texts recorded practice and by making parallels with folk medicine Archaeological evidence indicates both religious and non religious medical intervention while skeletal remains reveal both pathology and evidence of treatment

Knowledge in Translation Patrick Manning, Abigail Owen, 2018-09-19 In the second millennium CE long before English

became the language of science in the twentieth century the act of translation was crucial for understanding and disseminating knowledge and information across linguistic and geographic boundaries This volume considers the complexities of knowledge exchange through the practice of translation over the course of a millennium across fields of knowledge cartography health and medicine material construction astronomy and a wide geographical range from Eurasia to Africa and the Americas Contributors literate in Arabic Catalan Chinese Greek Hebrew Italian Japanese Latin Minnan Ottoman and Persian explore the history of science in the context of world and global history investigating global patterns and implications in a multilingual and increasingly interconnected world Chapters reveal cosmopolitan networks of shared practice and knowledge about the natural world from 1000 to 1800 CE emphasizing both evolving scientific exchange and the emergence of innovative science By unraveling the role of translation in cross cultural communication Knowledge in Translation highlights key moments of transmission insight and critical interpretation across linguistic and faith communities

Travel, Time, and Space in the Middle Ages and Early Modern Time Albrecht Classen, 2018-10-22 Research on medieval and early modern travel literature has made great progress which now allows us to take the next step and to analyze the correlations between the individual and space throughout time which contributed essentially to identity formation in many different settings The contributors to this volume engage with a variety of pre modern texts images and other documents related to travel and the individual's self orientation in foreign lands and make an effort to determine the concept of identity within a spatial framework often determined by the meeting of various cultures Moreover objects images and words can also travel and connect people from different worlds through books The volume thus brings together new scholarship focused on the interrelationship of travel space time and individuality which also includes of course women's movement through the larger world whether in concrete terms or through proxy travel via readings Travel here is also examined with respect to craftsmen's activities at various sites artists employment for many different projects all over Europe and elsewhere and in terms of metaphysical experiences catabasis

Encyclopedia of the History of Arabic Science Roshdi Rashed, 2019-08-08 The Arabic contribution is fundamental to the history of science mathematics and technology but until now no single publication has offered an up to date synthesis of knowledge in this area In three fully illustrated volumes the Encyclopedia of the History of Arabic Science documents the history and philosophy of Arabic science from the earliest times to the present day The set as a whole covers seven centuries Thirty chapters written by an international team of specialists from Europe America the Middle East and Russia cover such areas as astronomy mathematics music engineering nautical science and scientific institutions

Traduction Harald Kittel, Juliane House, Brigitte Schultze, 2004 This series of HANDBOOKS OF LINGUISTICS AND

COMMUNICATION SCIENCE is designed to illuminate a field which not only includes general linguistics and the study of linguistics as applied to specific languages but also covers those more recent areas which have developed from the increasing body of research into the manifold forms of communicative action and interaction. For classic linguistics there appears to be a need for a review of the state of the art which will provide a reference base for the rapid advances in research undertaken from a variety of theoretical standpoints while in the more recent branches of communication science the handbooks will give researchers both an overview and orientation. *Translation and Medicine* Henry

Fischbach, 1998-12-15 The contributors to *Translation and Medicine* address several broad aspects of medical translation from the cultural historic framework of the language of medicine to pragmatic considerations of register and terminology. Their articles highlight some of the contributions translation has made to medical science and addresses some of the questions raised by those who escort the advances of medicine across language and cultural barriers and those who train the next generation of medical translators. Section 1 covers some Historical and Cultural Aspects that have characterized the language of medicine in Japan and Western Europe with special emphasis on French and Spanish. Section 2 opens some vistas on The Medical Translator in Training with two specific university level programs in Switzerland and in Spain as well as an in depth analysis of who makes the better medical translator the medically knowledgeable linguist or the linguistically knowledgeable medical professional and Section 3 looks at several facets of The Translator at Work with discussions of the translator client relationship and the art of audience specific translating an insider's view of the Translation Unit of the National Institutes of Health and a detailed study of online medical terminology resources. Walford's Guide to Reference

Material: Generalia, language and literature, the arts Albert John Walford, Marilyn Mullay, Priscilla Schlicke, Library Association, 1996 From its first edition the purpose of Walford has been to identify and evaluate the widest possible range of reference materials. No rigid definition of reference is applied. In addition to the expected bibliographies indexes dictionaries encyclopaedias and directories a number of important textbooks and manuals of general practice are included. While the majority of the items are books Walford is a guide to reference material. Thus periodical articles microforms online and CD ROM sources are all represented. In this volume a particular effort has been made to improve coverage of the latter two categories.
