Archaeological Perspectives On The Battle Of The Little Bighorn:

Archaeological Perspectives on the Battle of the Little Bighorn Douglas D. Scott, Richard A. Fox, Melissa A. Connor, Dick Harmon, 2013-05-01 Ever since the Custer massacres on June 25 1876 the question has been asked What happened what REALLY happened at the Battle of the Little Bighorn We know some of the answers because half of George Armstrong Custer s Seventh Cavalry the men with Major Marcus Reno and Captain Frederick Benteen survived the fight but what of the half that did not the troopers civilians scouts and journalist who were with Custer Now because a grass fire in August 1983 cleared the terrain of brush and grass and made possible thorough archaeological examinations of the battlefield in 1984 and 1985 we have many answers to important questions On the basis of the archaeological evidence presented in this book we know more about what kinds of weapons were used against the cavalry We know exactly where many of the men fought how they died and what happened to their bodies at the time of or after death We know how the troopers were deployed what kind of clothing they wore what kind of equipment they had how they fought Through the techniques of historical archaeology and forensic anthropology the remains and grave of one of Custer s scouts Mitch Boyer have been identified And through geomorphology and the process of elimination we know with almost 100 percent certainty where the twenty eight missing men who supposedly were buried en masse in Deep Ravine will be found *Archaeological Perspectives on the Battle of the Little Bighorn* Richard A. Fox, Melissa A. Connor, Dick Harmon, 2000-09-01 Based on the archaeological evidence presented in this book we know more about the weapons used against the Custer and the Cavalry where many of the men fought how they died what happened to their bodies how the troopers were deployed and what kind of clothing they wore *Archaeological Perspectives on the Battle of the Little Bighorn* Melissa A. Perspectives on the Battle of the Little Bighorn Douglas D. Scott, 2000 *Archaeological Perspectives on the Battle of the Little Bighorn*, 1989 **Archaeological Perspectives on Warfare on the Great Plains** Andrew Clark, Douglas Bamforth, 2018-05-15 The Great Plains has been central to academic and popular visions of Native American warfare largely because the region's well documented violence was so central to the expansion of Euroamerican settlement. However, social violence has deep roots on the Plains beyond this post-Contact perception, and these roots have not been systematically examined through archaeology. Before war was part and perhaps an important part of the process of ethnogenesis that helped to define tribal societies in the region, and it affected many other aspects of human lives there. In *Archaeological Perspectives on Warfare on the Great Plains*, anthropologists who study sites across the Plains critically examine regional themes of warfare from pre-Contact and post-Contact periods and assess how war shaped human societies of the region. Contributors to this volume offer a bird's-eye view of warfare on the Great Plains, consider artistic evidence of the role of war in the lives of indigenous hunter-gatherers on the Plains prior to and during the period of Euroamerican expansion, provide archaeological discussions of fortification design and its implications, and offer archaeological and other information on the larger implications of war in human history. Bringing together research from across the region, this volume provides unprecedented evidence of the effects of war on tribal societies. *Archaeological Perspectives on Warfare on the Great Plains* is a valuable primer for regional warfare studies and the archaeology of the Great Plains as a whole. Contributors: Peter Bleed, Richard R. Drass, David H. Dye, John Greer, Mavis Greer, Eric Hollinger, Ashley Kendell, James D. Keyser, Albert M. LeBeau III, Mark D. Mitchell, Stephen M. Perkins, Bryon Schroeder, Douglas Scott, Linea Sundstrom, Susan C. Vehik **Legacy** Charles E. Rankin, 1996 *Proceedings of the Little Bighorn Legacy Symposium* held in Billings, Montana, August 3-6, 1994 Custer and the Little Bighorn Jim Donovan, 2011-02 This is the first major illustrated book to examine the life and death of General Custer **Custer, the Seventh Cavalry, and the Little Big Horn** Mike O'Keefe, 2012-11-20 Since the shocking news first broke in 1876 of the Seventh Cavalry's disastrous defeat at the Little Big Horn, fascination with the battle and with Lieutenant George Armstrong Custer has never ceased. Widespread interest in the subject has spawned a vast outpouring of literature which only increases with time. This two-volume bibliography of Custer literature is the first to be published in some twenty-five years and the most complete ever assembled. Drawing on years of research, Michael O'Keefe has compiled entries for roughly 3,000 books and 7,000 articles and pamphlets. Covering both nonfiction and fiction but not juvenile literature, the bibliography focuses on events beginning with Custer's tenure at West Point during the 1850s and ending with the massacre at Wounded Knee in 1890. Included within this span are Custer's experiences in the Civil War and in Texas, the 1873 Yellowstone and 1874 Black Hills expeditions, the Great Sioux War of 1876-77, and the Seventh Cavalry's pursuit of the Nez Percés in 1877. The literature on Custer, the Battle of the Little Big Horn, and the Seventh Cavalry touches the entire American saga of exploration, conflict, and settlement in the West, including virtually all Plains Indian tribes, the frontier army,

railroading mining and trading Hence this bibliography will be a valuable resource for a broad audience of historians librarians collectors and Custer enthusiasts

The Archaeology of Engagement Dana Lee Pertermann, Holly Kathryn Norton, 2015-11-06 When a historic battlefield site is discovered and studied the focus is often on the hardware remnants of weaponry ammunition supplies and equipment that archaeologists carefully unearth analyze conserve and frequently place on display in museums But what about the software What can archaeology teach us about the humans involved in the conflict their social mores and cultural assumptions their use and understanding of power In *The Archaeology of Engagement: Conflict and Revolution in the United States* Dana L Pertermann and Holly K Norton have assembled a collection of studies that includes sites of conflicts between groups of widely divergent cultures such as Robert E Lee's mid 1850s campaign along the Concho River and the battles of the River Raisin during the War of 1812 Notably the second half of the book applies the editors principles of conflict event theory to the San Jacinto Battlefield in Texas forming a case study of one of America's most storied and heavily trafficked battle sites
