Censer, 2022-04-28 At the turn of the twentieth century Amelia Rives was one of the most famous women in America. A member of Virginia's First Families and granddaughter of a U.S. senator, she belonged to the southern aristocracy. Considered one of the great beauties of her time, Rives leveraged both her connections and her own considerable talent to become a best-selling author and then married into the wealthy Astor family. As Jane Turner Censer makes clear in this long overdue biography, Rives's personal story filled with enormous triumphs and calamities was if anything as fascinating as her art. Rives's most famous novel, *The Quick and the Dead*, published when she was just twenty-four, was a sensation in its time, but soon she began to grapple with marital woes, an addiction to morphine and cocaine, and reams of unfavorable press coverage. Dramatically, she took control of her celebrity: she divorced her husband and married a Russian prince, broke free of addiction, and changed her image to that of a European princess. Rives then regained her writing career, including plays produced on Broadway. Censer draws from Rives's early diaries, correspondence, and publications, as well as the massive newspaper coverage she received during her lifetime, to provide insights into the limits imposed on and actions taken by ambitious elite young women in the late nineteenth century South. As a trailblazer, Rives used her beauty, brains, and wayward behavior to make a splash in a manner later adopted by southern women as disparate as Zelda Fitzgerald and Tallulah Bankhead.

Triumvirate: McKim, Mead & White Mosette Broderick, 2010-10-26 A rich, fascinating saga of the most influential far-reaching architectural firm of their time and of the dazzling triumvirate Charles McKim, William Mead, and Stanford White, who came together bound by the notion that architecture could help shape a nation in transition. They helped to refine America's idea of beauty, elevated its architectural practice, and set the standard on the world's stage. Their world and times were those of Edith Wharton and Henry James, though both writers and their society shunned the architects as being much too much about new money. They brought together the titans of their age with a vibrant and new American artistic community and helped to forge the arts of America's Gilded Age, informed by the heritage of European culture. McKim, Mead, and White wrote about money and power, about the education of an unsophisticated young country, and about the coming of artists as an accepted class in American society. Broderick, a renowned architectural and social historian, brilliantly weaves together the strands of biography, architecture, and history to tell the story of the houses and buildings Charles McKim, William Mead, and Stanford White designed. She writes of the firm's clients, many of whom were establishing their names and places in upper-class society as they built and grabbed railroads, headed law firms, and brokerage houses, owned newspapers, developed iron empires, and carved out a new direction for America's modern age.

Balfour's World Nancy W. Ellenberger, 2015 An exploration of political culture in Britain in the last decades of the nineteenth century revealing how Arthur Balfour and his circle served as a clear bridge between the Victorians and the moderns in Britain's twentieth century political culture Arthur James Balfour 1848-1930 was born toward the beginning of Queen Victoria's long reign At her death in 1901 he was a year away from becoming the first prime minister of the Edwardian era In the quarter century after his entry into political life in the 1870s Britain experienced material changes and a sense of intensifying human interactions as dramatic to his generation as the forces of globalization are today Aristocrats watched anxiously as gifted boys from the middle classes rose to the top in professional life Culture wars over male and female behaviours erupted at home as small wars of empire proliferated overseas Politicians came to terms with electioneering among the masses and with a boisterous print culture that prefigured the mass media of the next century The first great era of advanced international capitalism affected every segment of British and imperial society including the rarefied domain of Arthur Balfour That changes of the magnitude that Balfour's generation faced would demand different skills career paths or political alignments is not surprising That they might also result in the creation of different emotional sets and interior worlds may be more so Balfour's World provides an intimate history of how Arthur and his friends George Herbert 13th Earl of Pembroke Laura and Margot later Lady Asquith Tennant Mary and George Wyndham helped to construct a new emotional regime among Britain's political elites at the fin de siècle The rich diaries letters and publications they left allow access both to public selves and to inner landscapes and the mix of psychological patterns and cultural assumptions that mediated their responses to the world As the new century began the demeanours modelled by habits of

Balfour's world would characterize many in the imperial elite marking them as a clear bridge between the Victorians and the moderns in Britain's twentieth century political culture NANCY W ELLENBERGER is Professor of History at the United States Naval Academy Annapolis Maryland
