Architecture And The Burdens Of Linearity Theoretical Perspectives In Architectura:

Architecture and the Burdens of Linearity Catherine Ingraham,1998 In this suggestive inquiry into the operations of linearity in architectural theory and practice the author investigates the line as both a conceptual and literal force in architecture She approaches the subject from philosophical theoretical practical and historical points of view

Architectural Theories of the Environment Ariane Lourie Harrison,2013 These essays by architects theorists and sustainable designers together provide a framework to help you develop your own guidelines to approaching to your work Introductions define key terms and nine case studies demonstrate the concepts Architecture's Theory Catherine Ingraham,2023-04-18 A collection of illuminating essays exploring what theory makes of architecture and what architecture makes of theory in philosophical and materialized contexts From poststructuralism and deconstruction to current theories of technology and nature critical theory has long been closely aligned with architecture In turn architecture as a thinking profession materializes theory in the form of built work that always carries symbolic loads In this collection of essays Catherine Ingraham studies the complex connectivity between architecture s discipline and practice and theories of philosophy art literature history and politics She argues that there can be no architecture without theory Whether considering architecture s relationship to biomodernity or exploring the ways in which contemporary artists and designers engage in figural play Ingraham offers provocative interpretations that enhance our understanding of both critical theory and architectural practice today Along the way she engages with a wide range of contemporary theorists including Giorgio Agamben Judith Butler Jacques Derrida Graham Harman and Timothy Morton considering buildings around the world including the Palace of Culture in Warsaw the Viceroy s House complex in New Delhi Mack Scogin and Merrill Elam s Wolfsburg Science Center project in Germany and the Superdome in New Orleans Approaching its subject matter from multiple angles Architecture s Theory shows how architecture s theoretical and artifactual practices have a unique power to alter culture **Critical Architecture** Jane Rendell,Jonathan Hill,Mark Dorrian,Murray Fraser,2007-09-12 Critical

Architecture examines the relationship between critical practice in architecture and architectural criticism Placing architecture in an interdisciplinary context the book explores architectural criticism with reference to modes of criticism in other disciplines specifically art criticism and considers how critical practice in architecture operates through a number of different modes buildings drawings and texts With forty essays by an international cast of leading architectural academics this accessible single source text on the topical subject of architectural criticism is ideal for undergraduate as well as post graduate study *Architecture, Animal, Human* Catherine T. Ingraham,2006-02-02 Considering the historical links between architecture and the development of life sciences this text focuses on particular times of great change in these disciplines and the complex relationships between life and the environments that life creates Animals Matter: Resistance and Transformation in Animal Commodification ,2022-12-05 In this book we reclaim the term resistance by exploring how animals

can resist their commodification through blocking and allowing human intervention in their lives In the cases explored in this volume animals lead humans to rethink their relationship to animals by either blocking and or allowing human commodification In some cases this results in greater control exercised on the animals while in others animals resistance also poses a series of complex moral questions to human commodifiers sometimes to the point of transforming humans into active members of resistance movements on behalf of animals

Architectural and Urban Reflections after Deleuze and Guattari Constantin V. Boundas,Vana Tentokali,2017-12-15 The post humanist movement which currently traverses various disciplines in the arts and humanities as well as the role that the thought of Deleuze and Guattari has had in the course of this movement has given rise to new practices in architecture and urban theory This interdisciplinary volume brings together architects urban designers and planners and asks them to reflect and report on the built place and the city to come in the wake of Deleuze and Guattari

The Contested Territory of Architectural Theory Elie G. Haddad,2022-10-21 This book brings together a diverse group of theoreticians to explore architectural theory as a discipline assessing its condition and relevance to contemporary practice Offering critical assessment in the face of major social and environmental issues of today 17 original contributions address the relevance of architectural theory in the contemporary world from various perspectives including but not limited to politics gender representation race environmental crisis and history The chapters are grouped into two distinct sections the first section explores various historical perspectives on architectural theory mapping theory s historiographical turn and its emergence and decline from the 1960s to the present the second offers alternative visions and new directions for architectural theory incorporating feminist and human rights perspectives and addressing contemporary issues such as Artificial Intelligence and the Age of Acceleration This edited collection features contributions from renowned scholars as well as emergent voices with a Foreword by David Leatherbarrow This book will be of great interest to graduate and upper level students of architecture as well as academics and practicing architects
