Archival Resources Republican China America:

Archival Resources of Republican China in North America Chengzhi Wang, Su Chen, 2015-12-08 North America maintains the largest collection of archival materials relating to the Chinese Republican era 1911-1949 outside of China. Most of the archival materials are also unique and the collections contain special materials supplementing historical records in China and Taiwan. In many cases, North America's holdings represent the best and only public access to the tumultuous Republican government and society of the first half of the twentieth century. An essential guide for researchers and students of Republican China, this volume presented in both English and Chinese covers personal papers, correspondences, memoirs, diaries, photographs, moving images, and other materials held at academic and research institutions across the United States and Canada. It includes concise descriptions of the people, organizations, and events connected to each entry and notes when certain collections are closely related and when materials are digitized for online access. The book corrects common errors associated with the library records of many archives and updates or completes information on the objects of these records. More than a straightforward itemization, this book adds significant depth to any research on the history and global import of China's modern development. **Knowledge, Power, and Networks** Cécile Armand, Christian Henriot, Huei-min

Sun, 2022-09-12 In the past decades, the world has watched the rise of China as an economic and military power and the emergence of Chinese transnational elites. What may seem like an entirely new phenomenon marks the revival of a trend initiated at the end of the Qing. The redistribution of power, wealth, and knowledge among the newly formed elites matured during the Republican period. This volume demonstrates both the difficulty and the value of rethinking the elites in modern China. It establishes that the study of the dynamic tensions within the elite and among elite groups in this epochal era is within reach if we are prepared to embrace forms of historical inquiry that integrate the abundant and even limitless historical resources and to engage with the rich repertoire of digital techniques, instruments available, and question our previous research paradigms. This renewed approach brings historical research closer to an integrative, data-rich history of modern China. *State and Economy in Republican China* William C. Kirby, 2020-05-11 This manual for students focuses on archival research in the economic and business history of the Republican era 1911-1949. Following a general discussion of archival research and research aids for the Republican period, the handbook introduces the collections of archives in the People's Republic of China and the Republic of China on Taiwan that contain materials in the areas of economics and business, with data on the history of the archives, descriptions of their holdings, and publications on their collections. The second half of the work consists of guided readings in Republican era documents such as government decrees, regulations, and business letters, with complete vocabulary lists and explanations of terms. Also included with the handbook are facsimile reproductions of these documents. The Field of Chinese Language Education in the U.S. Vivian Ling, 2018-02-13 This book

will be the first account of the development of Chinese as a foreign language in the U.S. as it interacts with the relevant

entities in China and beyond There are virtually no systematic retrospective reflections on the field outside of the greater China region and yet over the past decades the field has grown by leaps and bounds and it is critical now that we pause to reflect on what has happened and what we can learn from the past The contributors are among some of the most influential pioneers in the field whose entire academic lives have been dedicated to its development The Field of Chinese Language Education in the U S A Retrospective of the 20th Century is aimed at those who are currently engaged in Chinese language education as teachers or as students *Collecting Educational Media* Anke Hertling, Peter Carrier, 2022-04-08 Over the last two centuries collectors from around the world have historicized politicized and digitized media in the pursuit of knowledge and education This collected volume explores collections of educational media and their bearing on the ways in which people learn in both the present and future how and why material objects have been used worldwide to store and maintain knowledge for politically expedient reasons and how our understanding of digital collections can be adequately understood only in relation to and as an extension and adaptation of the historically contingent material collections from which they emerged **Victorious in Defeat** Alexander V. Pantsov, 2023-01-01 An extensively researched comprehensive biography of Chinese Nationalist leader Chiang Kai shek one of the twentieth century s most powerful and controversial figures Chiang Kai shek 1887 1975 led the Republic of China for almost fifty years starting in 1926 He was the architect of a new republican China a hero of the Second World War and a faithful ally of the United States Simultaneously a Christian and a Confucian Chiang dreamed of universal equality yet was a perfidious and cunning dictator responsible for the deaths of over 1 5 million innocent people This critical biography is based on Chiang Kai shek s unpublished diaries his extensive personal files from the Russian archives and the Russian files of his relatives associates and foes Alexander V Pantsov sheds new light on the role played by the Russians in Chiang s rise to power in the 1920s and throughout his political career and indeed the Russian influence on the Chinese revolutionary movement as a whole as well as on Chiang s complex relationship with top officials of the United States It is a detailed portrait of a man who ranks with Stalin Roosevelt Hitler Churchill and Gandhi as leaders who shaped our world *Building a Better Chinese Collection for the Library of Congress* Chi Wang, 2012-07-02 In this collection of essays written by the former head of the Library of Congress Chinese Collection Chi Wang chronicles the modest beginnings of the Chinese Collection at the Library of Congress and his crusade to transform it into the largest collection and Chinese cultural presence outside Asia For anyone who has ever wondered what goes on inside the marble walls of one of the country s oldest federal institutions Wang relates an insider s account of the major milestones and changes to the administration of the Collection over the years Readers will be surprised not only to learn about some of the rare and priceless books that have found their way to the Library of Congress but also by the candor with which Wang shares his story about serving under three different Librarians of Congress each with a different mandate and mark they wanted to leave behind Building a Better Chinese Collection for the Library of Congress has value as American library history but also

serves as a useful introduction to Chinese historical archives and libraries Select writings discuss publication and personnel exchanges with Chinese academic libraries Chinese character encoding and library automation and publishing activities in China *Asian States* Richard Boyd,Tak-Wing Ngo,2005-01-26 A team of international leading experts provide a much needed re examination of the theoretical claims and the empirical foundation of developmental state theory Asian States argues that regardless of the merits of the developmental state as an explanation of economic growth it falls far short of being an adequate theory of the state in Asia The contributors critically review claims about agency state society and state market relations that shape developmental projects It broadens the analysis of state involvement in developmental projects and considers the variety of political and social bases for state projects across East and Southeast Asia in a theoretically sensitive thematic and empirically rich way *Monthly Catalog of United States Government Publications* ,1993 *Bulletin* ,1995
