comprehensive overview of the environmental impacts of various types of outdoor recreation and how these can be best
managed As a field of study recreational ecology is both multidisciplinary and interdisciplinary and the authors seek to
develop a deeper understanding of both the role and function of the factors that influence visitor numbers and their impact
An accessible and comprehensive textbook it features numerous types of outdoor recreational activities including hill walking
rock climbing mountain marathons skiing scuba diving and more Drawn from several global case studies the authors
estimate the current and future numbers involved in outdoor recreation and how best these numbers can be managed
Effective visitor impact management actions arise from collaboration between recreation ecologists social scientists
experienced recreation managers recreation stakeholders and the recreationalists themselves as such this book will be multi
disciplinary in scope This practical and engaging textbook will be invaluable to students and scholars of outdoor recreation
