**Doctors in Fiction** Borys Surawicz, Beverly Jacobson, 2018-04-19 Medical practitioners are key actors in many well known works of fiction and literature presenting a vital insight into the social medical scientific and ethical concerns of their authors and readers However medical professionals are often left little time to explore such cultural perceptions of their profession and by extension themselves despite the extent to which the views of their patients and society have been and still are shaped by them Doctors in Fiction explores and analyzes representations of medical practitioners in fiction encompassing classic and contemporary literature popular fiction and authors from many nations and traditions These include among others Albert Camus A Anton Checkhov A Robertson Davies A Graham Greene A George Eliot A Ian McEwan A F Scott Fitzgerald A Jaroslav Hasek A Henrik Ibsen A John Irving A Patrick O'Brien A Boris Pasternak A Aleksandr Solzhenitsyn This book will be of interest to those with an interest in the medical humanities and to students of cultural history and literature It will also be of particular interest to medical practitioners of all kinds who enjoy

literature and wish to understand and reflect upon wider perceptions of their profession      *On the Heels of Ignorance* Owen Whooley, 2019-04-23 Psychiatry has always aimed to peer deep into the human mind daring to cast light on its darkest corners and untangle its thorniest knots often invoking the latest medical science in doing so But as Owen Whooley's sweeping new book tells us the history of American psychiatry is really a record of ignorance *On the Heels of Ignorance* begins with psychiatry's formal inception in the 1840s and moves through two centuries of constant struggle simply to define and redefine mental illness to say nothing of the best way to treat it Whooley's book is no antipsychiatric screed however instead he reveals a field that has muddled through periodic reinventions and conflicting agendas of curiosity compassion and professional striving *On the Heels of Ignorance* draws from intellectual history and the sociology of professions to portray an ongoing human effort to make sense of complex mental phenomena using an imperfect set of tools with sometimes tragic results      *Susan Haack: Reintegrating Philosophy* Julia F. Göhner, Eva-Maria Jung, 2016-02-26 This volume documents the 17th Münster Lectures in Philosophy with Susan Haack the prominent contemporary philosopher It contains an original programmatic article by Haack on her overall philosophical approach entitled *The Fragmentation of Philosophy the Road to Reintegration* In addition the volume includes seven papers on various aspects of Haack's philosophical work as well as her replies to the papers Susan Haack has deeply influenced many of the debates in contemporary philosophy In her vivid and accessible way she has made ground breaking contributions covering a wide range of topics from logic metaphysics and epistemology to pragmatism and the philosophy of science and law In her work Haack has always been very sensitive in detecting subtle differences The distinctions she has introduced reveal what lies at the core of philosophical controversies and show the problems that exist with established views In order to resolve these problems Haack has developed some middle course approaches One example of this is her famous *Foundherentism* a theory of justification that includes elements from both the rival theories of *Foundationalism* and *Coherentism* Haack herself has offered the best description of her work calling herself a passionate moderate
