Popularizing the Past Nick Witham, 2023-07-26 *Popularizing the Past* tells the stories of five postwar historians who changed the way ordinary Americans thought about their nation s history What s the matter with history For decades critics of the discipline have argued that the historical profession is dominated by scholars unable or perhaps even unwilling to

write for the public In *Popularizing the Past* Nick Witham challenges this interpretation by telling the stories of five historians Richard Hofstadter Daniel Boorstin John Hope Franklin Howard Zinn and Gerda Lerner who in the decades after World War II published widely read books of national history Witham compellingly argues that we should understand historians efforts to engage with the reading public as a vital part of their postwar identity and mission He shows how the lives and writings of these five authors were fundamentally shaped by their desire to write histories that captivated both scholars and the elusive general reader He also reveals how these authors efforts could not have succeeded without a publishing industry and a reading public hungry to engage with the cutting edge ideas then emerging from American universities As Witham s book makes clear before we can properly understand the heated controversies about American history so prominent in today s political culture we must first understand the postwar effort to popularize the past

U.S. International Exhibitions during the Cold War Andrew James Wulf,2015-01-30 Although cultural diplomacy has become an increasingly fashionable term embraced by academics foreign service personnel and private sector commercial and cultural interests the very practice of this idea remains conspicuously challenging to define This book takes on this problem advancing a new understanding of cultural diplomacy that results from a historical investigation of a single area of government and private sector partnership and what became in the mid twentieth century the most prominent manifestation of this alliance the cultural exhibitions sent abroad to tell America s story with the goal of winning hearts and minds To illustrate this point selected exhibitions and the intentions of the policymakers who proposed them are interrogated for the first time beside archival documentation writings from the history of design advertising science as well as art historical and museum studies theories that address various aspects of the history of collecting and display all of which explore the reality of how these exhibitions were conceived and prepared for foreign audiences Most importantly personal interviews with the designers and government representatives responsible for the ultimate appearance of these events upturn preconceived notions of how these events came to be Seventy five photographs from the exhibits make this history come alive Through this discussion these questions are answered What was America showing of itself through these exhibitions And more urgently what do these exhibitions tell us about U S interest in verisimilitude This investigation spans the crucial years of American exhibitions abroad 1955 1975 beginning with the formation of an official system of exhibiting American commercial wares and political ideas at trade fairs through official exchanges with the U S S R to pavilions at world s fairs and finally to museum exhibitions that signaled a return to the display of founding American values They are thus complex ideological symbols in which concepts of national identity globalization technology consumerism design and image management both coincided and clashed The investigation of these exhibitions enhances the understanding of a significant chapter of U S cultural diplomacy at the height of the Cold War and how America constantly reimagined itself

Upstaging the Cold War Andrew J. Falk,2011 How dissident artists became cultural emissaries during the early decades of the Cold War

Upstaging the Cold War Andrew Justin Falk, 2010 **Dance for Export**, 2001 Entangled East and West Simo Mikkonen, Jari Parkkinen, Giles Scott-Smith, 2019

Despite increasing scholarship on the cultural Cold War focus has been persistently been fixed on superpowers and their actions missing the important role played by individuals and organizations all over Europe during the Cold War years This volume focuses on cultural diplomacy and artistic interaction between Eastern and Western Europe after 1945 It aims at providing an essentially European point of view on the cultural Cold War providing fresh insight into little known connections and cooperation in different artistic fields Chapters of the volume address photography and architecture popular as well as classical music theatre and film and fine arts By examining different actors ranging from individuals to organizations such as universities the volume brings new perspective on the mechanisms and workings of the cultural Cold War Finally the volume estimates the pertinence of the Cold War and its influence in post 1991 world The volume offers an overview on the role culture played in international politics as well as its role in the Cold War more generally through interesting examples and case studies

Shared Images Kirill Chunikhin, 2025-03-31 Who organized numerous exhibitions of American art in the Cold War Soviet Union and why Did Americans truly want to subvert the Soviet regime with abstraction and were the Soviets really afraid of non figurative art And most noteworthy can we adequately assess the role of art as a weapon of the Cold War The significance of Shared Images lies in its revision of what to date has been a biased politicized approach to American art and Soviet cultural policies during the Cold War Shared Images proposes that we write Cold War art history without merely projecting political events onto the art historical timeline and interpolating the logic of Cold War politics into cultural history Instead the monograph presents a careful narrative which along with major political events also considers individual agencies affective regimes and of course formative contexts other than the political Exploring American art as an essentially global phenomenon the monograph employs the concept of a shared history to analyze interconnections and mutual dependence of Soviet and American art histories from the late 1940s to the 1960s Shared Images thus revises narratives on Soviet and American isolationism allegedly a distinctive feature of Cold War cultures
