Art Of Darkness A Poetics Of Gothic:

Art of Darkness Anne Williams, 2009-02-15 Art of Darkness is an ambitious attempt to describe the principles governing Gothic literature Ranging across five centuries of fiction drama and verse including tales as diverse as Horace Walpole's The Castle of Otranto Shelley's Frankenstein Coleridge's The Rime of the Ancient Mariner and Freud's The Mysteries of Enlightenment Anne Williams proposes three new premises that Gothic is poetic not novelistic in nature that there are two parallel Gothic traditions Male and Female and that the Gothic and the Romantic represent a single literary tradition Building on the psychoanalytic and feminist theory of Julia Kristeva Williams argues that Gothic conventions such as the haunted castle and the family curse signify the fall of the patriarchal family Gothic is therefore poetic in Kristeva's sense because it reveals those others most often identified with the female Williams identifies distinct Male and Female Gothic traditions In the Male plot the protagonist faces a cruel violent and supernatural world without hope of salvation The Female plot by contrast asserts the power of the mind to comprehend a world which though mysterious is ultimately sensible By showing how Coleridge and Keats used both Male and Female Gothic Williams challenges accepted notions about gender and authorship among the Romantics Lucidly and gracefully written Art of Darkness alters our understanding of the Gothic tradition of Romanticism and of the relations between gender and genre in literary history **The Blood is the Life**

Leonard G. Heldreth, Mary Pharr, 1999 The essays in this volume use a humanistic viewpoint to explore the evolution and significance of the vampire in literature from the Romantic era to the millennium **BOOK JACKET Irish Gothics** Christina Morin, Niall Gillespie, 2014-05-30 Scholarly interest in the Irish Gothic has grown at a rapid pace in recent years but the debate over exactly what constitutes this body of literature remains far from settled This collection of essays explores the rich complexities of the literary gothic in eighteenth and nineteenth century Ireland *Body Politics in Contemporary Irish Women's Fiction* Ellen Scheible, 2024-12-12 Exploring twentieth and twenty first century texts that wrestle with the Irish domestic interior as a sexualized and commodified space this book provides readings of the power and authority of the feminized body in Ireland Scheible dissects the ways that the woman as symbol remains consistent in Irish literary representations of national experience in Irish fiction and shows how this problematizes the role of women in Ireland by underscoring the oppression of sexuality and gender that characterized Irish culture during the twentieth century Examining works by Elizabeth Bowen Pamela Hinkson Emma Donoghue Tana French Sally Rooney and James Joyce this book demonstrates that the definition of Irish nationhood in our contemporary experience of capitalism and biopolitics is dependent on the intertwining and paradoxical tropes of a traditional yet equally sexual feminine identity which has been quelled by violence and reproduction **Born Yesterday** Stephanie Insley Hershinow, 2020-08-04 The early novel was not the coming of age story we know today eighteenth century adolescent protagonists remained in a constant state of arrested development never truly maturing Between the emergence of the realist novel in the early eighteenth century and the novel's

subsequent alignment with self improvement a century later lies a significant moment when novelistic characters were unlikely to mature in any meaningful way That adolescent protagonists poised on the cusp of adulthood resisted a headlong tumble into maturity through the workings of plot reveals a curious literary and philosophical counter tradition in the history of the novel Stephanie Insley Hershinow s *Born Yesterday* shows how the archetype of the early realist novice reveals literary character tout court Through new readings of canonical novels by Samuel Richardson Henry Fielding Horace Walpole Ann Radcliffe Frances Burney and Jane Austen Hershinow severs the too easy tie between novelistic form and character formation a conflation she argues of *Bild* with *Bildung* A pop culture infused epilogue illustrates the influence of the eighteenth century novice as embodied by Austen s *Emma* in the 1995 film *Clueless* as well as in dystopian YA works like *The Hunger Games* Drawing on bold close readings *Born Yesterday* alters the landscape of literary historical eighteenth century studies and challenges some of novel theory s most well worn assumptions *Gothicka* Victoria Nelson,2012-04-23 The Gothic has taken a revolutionary turn in this century Today s Gothic has fashioned its monsters and devils into heroes and angels and is actively reviving supernaturalism in popular culture Nelson argues that this mainstreaming of a spiritually driven supernaturalism is a harbinger of what a post Christian religion in America might look like [A Handbook of Romanticism Studies](#) Joel Faflak,Julia M. Wright,2016-01-19 The Handbook to Romanticism Studies is an accessible and indispensable resource providing students and scholars with a rich array of historical and up to date critical and theoretical contexts for the study of Romanticism Focuses on British Romanticism while also addressing continental and transatlantic Romanticism and earlier periods Utilizes keywords such as imagination sublime poetics philosophy race historiography and visual culture as points of access to the study of Romanticism and the theoretical concerns and the culture of the period Explores topics central to Romanticism studies and the critical trends of the last thirty years **Poe and Women** Amy Branam Armiento,Travis Montgomery,2023-02-15 Edgar Allan Poe notoriously identified the death of a beautiful woman as the most poetical topic in the world Despite this cringeworthy claim it is widely known that Poe drew creative inspiration from female authors and that women figure prominently among the artists and critics fascinated by the writer s creative legacy Filling a major gap in scholarship on Poe this volume investigates the varied ways that women have influenced perceptions of Poe through biography criticism editorial work and creative adaptation Covering a timeframe from the mid nineteenth century to the present *Poe and Women* addresses a range of topics including accounts of Poe written by female contemporaries the scholarly efforts of women in establishing Poe s worldwide reputation and the revision of antebellum gender constructs in popular adaptations of Poe s work This collection will appeal not only to Poe specialists but also to anyone interested in the writer s ongoing relevance to gender discussions inside and outside the academy *New Perspectives on Mary Elizabeth Braddon* ,2015-06-29 Mary Elizabeth Braddon one of the most prolific authors of the Victorian period remains best known for her sensation fiction but over the course of a long career contributed to a multitude

of literary genres working as a journalist short story writer and editor as well as authoring more than eighty novels This exciting new collection of essays reappraises Braddon s work and offers a series of new perspectives on her literary productions The volume is divided into two parts the first considers Braddon s seminal sensation novel Lady Audley s Secret the second examines some of her lesser known fiction including her first published novel The Trail of the Serpent as well as some of her twentieth century fiction The first collection of essays on Braddon to appear since 1999 this volume sheds new light on the Queen of the circulating libraries **The Demon & the Damsel** Suzanne Maureen Waldman, 2008 Developing a perspective on Victorian culture as the breeding ground for early theories of the psyche this title offers a reading of the Victorian siblings literature and visual arts It views poems and artworks such as Christina Rossetti s Goblin Market and Dante Gabriel Rossetti s The Blessed Damsel and Venus Verticordia
