Careers in Focus: Visual Arts, Third Edition James Chambers, 2022-06-01 Ferguson's Careers in Focus books are a valuable career exploration tool for libraries and career centers. Written in an easy to understand yet informative style, this series surveys a wide array of commonly held jobs and is arranged into volumes organized by specific industries and interests. Each of these informative books is loaded with up to date career information presented in a featured industry article and a selection of detailed professions articles. The information here has been researched, vetted, and analyzed by Ferguson's editors drawing from government and industry sources, professional groups, news reports, career and job search resources, and a variety of other sources. For readers making career choices, these books offer a wealth of helpful information and resources.

Art Since 1900: 1900-1944 Hal Foster, Rosalind E. Krauss, Yve-Alain Bois, B. H. D. Buchloh, David Joselit, 2011. Chronicles the history of modern art during each year of the twentieth and twentieth-first centuries through essays that explore a ground-breaking work, publication, exhibition, opening, or other significant event.

Art of Suppression Pamela M. Potter, 2016-06-28. One thinks of the arts in Nazi Germany as struggling in an oppressive system, yet evidence has repeatedly shown that conditions were far more favourable than we assume. Potter conducts a historiography of Nazi arts, examining writings from the last seven decades to demonstrate how historical, moral, and intellectual conditions have sustained a distorted characterization of cultural life in the Third Reich. Showing how past research has revealed the decentralized nature of Nazi arts policies, Potter argues that the insulation of academic disciplines allowed outdated presumptions about Nazi micromanagement of the arts to persist.

Modernist Diaspora Richard D. Sonn, 2022-02-10. In the years before, during, and after the First World War, hundreds of young Jews flocked to Paris, artistic capital of the world and center of modernist experimentation. Some arrived with prior training from art academies in Kraków, Vilna, and Vitebsk; others came armed only with hope and a few memorized phrases in French. They had little Jewish tradition in painting and sculpture to draw on, yet despite these obstacles, these young Jews produced the greatest efflorescence of art in the long history of the Jewish people. The paintings of Marc Chagall, Amedeo Modigliani, Chaim Soutine, Sonia Delaunay, and the sculptures of Jacques Lipchitz, Ossip Zadkine, Chana Orloff, and works by many other artists now grace the world's museums. As the *coût de Paris* was the most cosmopolitan artistic movement the world had seen, the left bank neighborhood of Montparnasse became a meeting place for diverse cultures. How did the tolerant bohemian atmosphere of Montparnasse encourage an international style of art in an era of bellicose nationalism, not to mention racism and antisemitism? How did immigrants not only absorb but profoundly influence a culture? This book examines how the clash of cultures produced genius.

New Perspectives on Brücke Expressionism Christian Weikop, 2017-07-05. *New Perspectives on Brücke Expressionism: Bridging History* brings together highly renowned international art historians in a scholarly work that offers the first full-length reassessment in English of the Brücke group to German modernism, specifically, and to international

modernism more generally. It challenges, interrogates and updates existing orthodoxies in the field of Brücke studies by deploying new research combined with innovative interpretative approaches. This is an exciting volume of essays with an interlinking tripartite structure that charts the significance of this pioneering German avant garde group in relation to various critical themes namely cultural and material identity, collectivity and selfhood as well as defamation and rehabilitation. The book is unique in the field in that it seeks to excavate specific historical research relating to the activities of the Brücke as a bohemian yet nonetheless enterprising artists' community and considers the contributions of the key members in relation to the dynamics of that group rather than simply on an individual basis. It thoroughly explores the historiography of the Brücke artists' reception throughout the turbulent history of the twentieth century up until the present day.

The Handbook of Visual Culture Ian Heywood, Barry Sandywell, 2014-01-21 Visual culture has become one of the most dynamic fields of scholarship: a reflection of how the study of human culture increasingly requires distinctively visual ways of thinking and methods of analysis. Bringing together leading international scholars to assess all aspects of visual culture, the Handbook aims to provide a comprehensive and authoritative overview of the subject. The Handbook embraces the extraordinary range of disciplines which now engage in the study of the visual: film and photography, television, fashion, visual arts, digital media, geography, philosophy, architecture, material culture, sociology, cultural studies and art history. Throughout the Handbook is responsive to the cross-disciplinary nature of many of the key questions raised in visual culture around digitization, globalization, cyberculture, surveillance, spectacle and the role of art. The Handbook guides readers new to the area as well as experienced researchers into the topics, issues and questions that have emerged in the study of visual culture since the start of the new millennium, conveying the boldness, excitement and vitality of the subject.

Rethinking Modern Austrian Art Beyond the Metropolis Julia Secklehner, 2024-08-02 This study examines the role played by regional cultures in modern art and visual culture in Central Europe between 1918 and 1938. Analysing paintings, photographs, prints and illustrated magazines in relation to topics such as tourism, social activism, rural exoticism, gender and ethnic diversity, the book offers a fresh perspective on Central European art and visual culture. It pays particular attention to Austria, a country often ignored in histories of modernism in Central Europe, yet one where the countryside gained high visibility as a part of modern culture between the wars. Examples from Czechoslovakia and Hungary also play an important role in comparison and challenge the nationally fragmented histories of modernism in the region. The book's approach overall is also relevant beyond Central Europe: it corrects assumptions that modern art and visual culture were at home in the urban space and emphasises the role of the countryside as an agent of renewal and emancipation in order to construct a more nuanced history of modernism. The book will be of interest to scholars studying art history, Central European studies, European Studies, modernism and cultural history.
