

Jan Vermeer, "The Guitar Player" (1672)

Kenwood House, London

“‘The Guitar Player’ constructs a Calvinist phenomenological epoché in order to systematically criticize Counter-Reformationist assumptions of irreducible and harmonious existence. Through simulation and prediction it also examines the participant’s failure to oppose the dominant cultural projection of ataraxia. The signifier of the framed landscape picture objectifies the nascent submissiveness that delineates and codifies the image’s intuitively pre-emptive stasis and role generation.”

—Jan Vermeer

Artists Statements Of The Old Masters

Artists Statements Of The Old Masters:

Artist's Statements of the Old Masters John Seed,2015-07-15 If the great European artists of the past were alive today what kinds of statements would they need to write to explain and justify their work HuffingtonPost Arts blogger John Seed answers this question for 24 great European works of art satirizing the language of Postmodern art writing in the process

Artist's Statements of the Old Masters: Collector's Edition John Seed,2015-07-29 If the great European artists of the past were alive today what kinds of statements would they need to write to explain and justify their work HuffingtonPost Arts blogger John Seed answers this question for 24 great European works of art satirizing the language of Postmodern art writing in the process In Seed s hilarious sendup Old Master artists make pretentious comments that sound a lot like those made by today s postmodern academics and MFA candidates For example the 18th century painter Fragonard talks about the callipygian forms of a complex homosocial nexus in an anti Lacanian context The Northern Renaissance master Hieronymous Bosch investigates a lexicon of parafictional erotic proclivities McArthur Prize winning critic Dave Hickey says No young art historian should be without this book It fills a gaping hole in Old Master Studies Art Dealer and critic Mat Gleason comments A great takedown and easily the best art world satire in a decade *Black Artists in Their Own Words* Lisa Farrington,2025 The first book to center Black artists voices on Black aesthetics revealing a century of evolving relationships to race identity and art What is Black art No one has thought harder about that question than Black artists yet their perspectives have been largely ignored Instead their stories have been told by intellectuals like W E B Du Bois and Alain Locke who defined a school of Black art in the early twentieth century For the first time *Black Artists in Their Own Words* offers an insightful corrective Esteemed art historian Lisa Farrington gathers writing spanning a century across the United States the Caribbean and the African continent including from renowned artists Henry Tanner Nancy Elizabeth Prophet Romare Bearden Wifredo Lam Renee Cox and many more that reveals both evolutions and equivocations Many artists especially during the civil rights era have embraced Black aesthetics as a source of empowerment Others prefer to be artists first and Black second while some have rejected racial identification entirely Here Black artists reclaim their work from reductive critical narratives sharing the motivations underlying their struggles to create in a white dominated art world

The Symbolist Roots of Modern Art Michelle Facos, 2017-07-05 With the words A new manifestation of art was expected necessary inevitable Jean Mor announced the advent of the Symbolist movement in 1886 When Symbolist artists began experimenting in order to invent new visual languages appropriate for representing modern life in all its complexity they set the stage for innovation in twentieth century art Rejecting what they perceived as the superficial descriptive quality of Impressionism Naturalism and Realism Symbolist artists delved beneath the surface to express feelings ideas scientific processes and universal truths By privileging intangible concepts over perceived realities and by asserting their creative autonomy Symbolist artists broke with the past and paved the way for the heterogeneity and penchant for risk taking that characterizes modern art The essays collected here which consider artists from France to Russia and Finland to Greece argue persuasively that Symbolist approaches to content form and subject helped to shape twentieth century Modernism Well known figures such as Kandinsky Khnopff Matisse and Munch are considered alongside lesser known artists such as Fini Gyzis Koen and Vrubel in order to demonstrate that Symbolist art did not constitute an isolated moment of wild experimentation but rather an inspirational point of departure for twentieth century developments

Unveiling the Magic of Words: A Review of "**Artists Statements Of The Old Masters**"
