A Medium Seldom Well Done Critical Studies In Television:

A Medium Seldom Well Done Patrick A. Trimble, 2003 **Never Done** Erin Hill, 2016-10-05 Histories of women in Hollywood usually recount the contributions of female directors screenwriters designers actresses and other creative personnel whose names loom large in the credits Yet from its inception the American film industry relied on the labor of thousands more women workers whose vital contributions often went unrecognized **Never Done** introduces generations of women who worked behind the scenes in the film industry from the employees wives who hand colored the Edison Company's films frame by frame to the female immigrants who toiled in MGM's backrooms to produce beautifully beaded and embroidered costumes Challenging the dismissive characterization of these women as merely menial workers media historian Erin Hill shows how their labor was essential to the industry and required considerable technical and interpersonal skills Sketching a history of how Hollywood came to define certain occupations as lower paid women's work or feminized labor Hill also reveals how enterprising women eventually gained a foothold in more prestigious divisions like casting and publicity Poring through rare archives and integrating the firsthand accounts of women employed in the film industry the book gives a voice to women whose work was indispensable yet largely invisible As it traces this long history of women in Hollywood **Never Done** reveals the persistence of sexist assumptions that even today leave women in the media industry underpraised and underpaid For more information <http://erinhill.squarespace.com> Television Studies Jonathan Gray, Amanda D. Lotz, 2019-01-15 *Television Studies* provides an overview of the origins central ideas and intellectual traditions of this exciting field What have been the primary areas of inquiry in television studies Why and how did these areas develop How have scholars studied them How are they developing What have been the discipline's key works This book answers these questions by tracing the history of television studies right up to the digital present surveying emerging scholarship and addressing new questions about the field's relationship with the digital The second edition includes an examination of how internet distributed services such as Netflix have adjusted the stories industrial practices and audience experience of television For all those wondering how to study television or even why to study television this new edition of *Television Studies* will provide a clear and engaging overview of key topics The book works as a stand alone introduction and by placing key works in a broader context can also provide an excellent basis for an entire course *Literacy in a Digital World* Kathleen Tyner, 2014-04-08 In this book Kathleen Tyner examines the tenets of literacy through a historical lens to demonstrate how new communication technologies are resisted and accepted over time New uses of information for teaching and learning create a disconnect in the complex relationship between literacy and schooling and raise questions about the purposes of literacy in a global networked educational environment The way that new communication technologies change the nature of literacy in contemporary society is discussed as a rationale for corresponding changes in schooling Digital technologies push beyond alphabetic literacy to explore the way that sound image and text can be incorporated into

education Attempts to redefine literacy terms computer information technology visual and media literacies proliferate and reflect the need to rethink entrenched assumptions about literacy These multiple literacies are advanced to help users make sense of the information glut by fostering the ability to access analyze and produce communication in a variety of forms Tyner explores the juncture between two broad movements that hope to improve education educational technology and media education A comparative analysis of these two movements develops a vision of teaching and learning that is critical hands on inquiry based and suitable for life in a mobile global participatory democracy
