Supreme Court, John Chandler Bancroft Davis, Henry Putzel, Henry C. Lind, Frank D. Wagner, 1952 Global Competition Law and Economics Einer Elhauge, Damien Geradin, 2011-08-03 This is the second edition of the acclaimed text on global antitrust law With markets becoming increasingly global mergers requiring approval in several different jurisdictions cartels in one nation affecting supply in others and countries increasingly entering into treaties with each other about the content or enforcement of competition laws antitrust law is now a truly global phenomenon Modern antitrust law is also different because it now reflects an increasingly economic approach to analysing antitrust and competition policy This innovative work is the only truly comparative and economically sophisticated casebook on the market Addressed to students from all jurisdictions having competition laws this casebook provides an in depth analysis of the two major global antitrust regimes in the world as well as a summary of selected national antitrust laws As such it will also serve as a useful reference for practitioners competition officials and policy makers interested in competition law In the four years since the first edition the increased globalization of antitrust law has continued apace China the world's third largest economy after the EU and US has adopted an antitrust law and other

nations have modified and modernized their antitrust regimes The EU has adopted a new EU Treaty new EU guidelines on abuse of dominance new EU guidelines on non horizontal mergers and new EU regulations and guidelines on vertical agreements In the US there have been important new Supreme Court cases the 2009 Linkline and 2010 American Needle decisions and the appearance of a new economic approach in the revised 2010 U S Merger Guidelines This new edition expands and updates the pioneering approach of the first edition addressing new developments not only in the US and EU but also in Australia Brazil Canada Israel Japan South Africa and South Korea with expanded coverage of China s new antitrust law and the antitrust laws of Argentina Chile Colombia Egypt India Indonesia New Zealand Peru Russia Saudi Arabia Singapore Taiwan Thailand Turkey and Venezuela Praise for the first edition worthy of considerable praise contains a vast collection of well chosen material taking in a wide span of both antitrust and merger law issues It is well written and clear throughout particularly on the economic concepts and provides incisive commentary and questions which inspire further study Peter Whelan Cambridge Law Journal Enlightened law professors and law schools will best serve their students not by teaching national competition law but by adopting Global Competition Law and Economics an excellent book for introductory courses in comparative competition law at either a graduate or undergraduate level Okeoghene Odudu Common Market Law Review the best four and a half centimetres of shelf space that I have seen devoted to competition law and policy issues for a very long time Yvonne van Roy New Zealand Law Journal Free from the ideologically driven perspective that can affect other antitrust casebooks this is also the first casebook organized from inception with an eye directly on the global context this book may be used in a classroom in Europe just as it will be used in the U S The result is a highly welcome contribution to the evolution of competition studies Judge Douglas Ginsburg this book is the only one on the market that is extremely well suited for use in a comparative antitrust law class an extraordinarily teachable book that contains everything you might want to present Finally the comparative antitrust field has a standard textbook to use And a wonderful standard it is Robert H Lande University of Baltimore Law School **Journal of electricity, power, and gas** P.C.
