Citizens of Israel: Towards the Internationalisation of National Aspirations Ilham Shahbari,2021-01-28 The relations between the Israeli state and its Arab citizens have been distorted by the perception that national security concerns require the full rights of citizenship to be restricted for members of the Arab community However the national security of the state can also be affected by a poor reputation in the international community which plays a vital role in sustaining the existence of the state This created a space for Arab intelligentsia to use internationalisation as a means to promote their cause This study is designed to explore and analyse the internationalisation process and its impact regarding the Arab community in Israel It is a beneficial source to academics experts policymakers journalists and other experts and interested members of the public

Arab-Jewish Activism in Israel-Palestine Marcelo Svirsky,2016-04-15 Applying the insights of Deleuze and Guattari s works to Israel Palestine Arab Jewish Activism in Israel Palestine sets out to re conceptualise the relationship between resistance and power in ethnically segregated spaces in general and the Israeli Palestine context in particular Combining

many years of ethnographic study and political and social activism with a solid theoretical conceptual framework Marcelo Svirskey convincingly argues that successful efforts to decolonise the region depend on taking the struggle beyond self determination and making it collaborative Decolonisation depends on political and cultural changes that elaborate on the historical partition of social life in the region that have been an issue since the early twentieth century This elaboration means producing a civil struggle aimed at the destabilisation of the Zionist supremacy and resulting in a democratic political community from the Mediterranean Sea to the Jordan River Simply not just another book on Israel and Palestine Arab Jewish Activism in Israel Palestine provides refreshingly new empirical evidence and theoretical analysis on the connection between resistance intercultural alliances civil society and the potential for actualising shared sociabilities in a conflict ridden society An indispensable read to all scholars wishing to gain original insights into the transversal connections which transcend ethnicity

Islam in Israel Muhammad Al-Atawneh, Nohad Ali, 2018-01-11 Islam is the religion of the majority of Arab citizens in Israel and since the late 1970s has become an important factor in their political and socio cultural identity This leads to an increasing number of Muslims in Israel who define their identity first and foremost in relation to their religious affiliation By examining this evolving religious identity during the past four decades and its impact on the religious and socio cultural aspects of Muslim life in Israel Muhammad Al Atawneh and Nohad Ali explore the local nature of Islam They find that Muslims in Israel seem to rely heavily on the prominent Islamic authorities in the region perhaps more so than minority Muslims elsewhere This stems inter alia from the fact that Muslims in Israel are the only minority that lives in a land they consider to be holy and see themselves as a natural

Arab-Palestinian Society in the Israeli Political System Rami Zeedan, 2019-06-28 The Arab Palestinian community which constitutes 20 percent of Israel's population is an ethnic minority living mainly in ethnically homogeneous cities and villages Arab Palestinian Society in the Israeli Political System offers a comprehensive detailed examination of Arab Palestinian citizens of Israel within the Green Line in the twenty first century Rami Zeedan analyzes political trends leadership and the effects on Arab Palestinian identity in Israel of recent changes especially the 2015 legislative elections The author also sheds light on the crisis and identifies the sources and relations to the local political structure in Arab localities in Israel The book discusses the implications of the integration of an ethnic minority in an ethnic state and on the definition of Israel as Jewish and Democratic

The Oxford Handbook of Israeli Politics and Society Reuven Y. Hazan, Alan Dowty, Menachem Hofnung, Gideon Rahat, 2021 Few countries receive as much attention as Israel and are at the same time as misunderstood The Oxford Handbook of Israeli Politics and Society brings together leading Israeli and international figures to offer the most wide ranging treatment available of an intriguing country It serves as a comprehensive reference for the growing field of Israel studies and is also a significant resource for students and scholars of comparative politics recognizing that in many ways Israel is not unique but rather a test case of democracy in deeply divided societies and states engaged in intense conflict The handbook presents an overview of the historical

development of Israeli democracy through chapters examining the country's history contemporary society political institutions international relations and most pressing political issues It outlines the most relevant developments over time while not shying away from the strife both in and around Israel It presents opposed narratives in full force enabling readers to make their own judgments **In Search of Identity** Dan Urian, Efraim Karsh, 1999 This study of Israeli culture affords a meaningful insight into a society in a state of transition
