Ramírez-Weaver,2017-02-24 In *A Saving Science* Eric Ram rez Weaver explores the significance of early medieval astronomy in the Frankish empire using as his lens an astronomical masterpiece the deluxe manuscript of the Handbook of 809 painted in roughly 830 for Bishop Drogo of Metz one of Charlemagne's sons Created in an age in which careful study of the heavens served a liturgical purpose to reckon Christian feast days and seasons accurately and thus reflect a heavenly order the diagrams of celestial bodies in the Handbook of 809 are extraordinary signifiers of the intersection of Christian art and classical astronomy Ram rez Weaver shows how by studying this lavishly painted and carefully executed manuscript we gain a unique understanding of early medieval astronomy and its cultural significance In a time when the Frankish church sought to renew society through education the Handbook of 809 presented a model in which study aided the spiritual reform of the cleric's soul and by extension enabled the spiritual care of his community An exciting new interpretation of Frankish painting *A Saving Science* shows that constellations in books such as Drogo's were not simple copies for posterity's sake but functional tools in the service of the rejuvenation of a creative Carolingian culture *Daniele Barbaro's Vitruvius of 1567* Kim Williams,2019-07-05 This is the first ever English translation of Daniele Barbaro's 1567 Italian translation of and commentary on Vitruvius's Ten

Pindar and the Poetics of Permanence Henry Spelman,2018-04-23 Recent scholarship on early Greek lyric has been primarily concerned with the immediate contexts of its first performance This volume instead turns its attention to the rhetoric and realities of poetic permanence Taking Pindar and archaic Greek literary culture as its focus it offers a new reading of Pindar s victory odes which explores not only how they were received by those who first experienced them but also what they can mean to later audiences Part One of the discussion investigates Pindar s relationship to both of these audiences demonstrating how his epinicia address the listeners present at their premiere performance and also a broader secondary audience across space and time It argues that a full appreciation of these texts involves taking both perspectives into account Part Two describes how Pindar engages with a wide variety of other poetry particularly earlier lyric in order to situate his work both within an immanent poetic history and a contemporary poetic culture It shows how Pindar s vision of the world shaped the meaning of his work and illuminates the context within which he anticipated its permanence The book offers new insights into the texts themselves and invites us to rethink early Greek poetic culture through a combination of historical and literary perspectives

The Diet of John the Baptist James A. Kelhoffer,2005 James A Kelhoffer offers a comprehensive analysis of Mark 1 6c par Matt 3 4c in its socio historical context the Synoptic gospels and subsequent Christian interpretation The first chapter surveys various anecdotes about John s food in the Synoptic gospels and notes that there has never been a consensus in scholarship concerning John s locusts and wild honey Chapters 2 and 3 address locusts as human food and assorted kinds of wild honey in antiquity Chapter 4 considers the different meanings of this diet for the historical Baptist Mark and Matthew Contemporary anthropological and nutritional data shed new light on John s experience as a locust gatherer and assess whether these foods could have actually sustained him in the wilderness The last chapter demonstrates that the most prevalent interpretation of the Baptist s diet from the third through the sixteenth centuries hails John s simple wilderness provisions as a model for believers to emulate
