Archetypes Of The Soul:

Archetypes of the Soul Varda Hasselmann, Frank Schmolke, 1998-04 The SOURCE channeled by Varda Hasselmann during extensive trance sessions gives comforting and enlightening answers to the questions of life The SOURCE communicates that every human leads a meaningful life imbedded in a greater spiritual context In the system of Archetypes of the Soul introduced here the reader finds a new and practical approach to their individual life task and a meaningful existence

Archetypes of Soul Charles Bebeau Ph D, N* i* n Sharyn Bebeau, N* i* n Sharyn Bebeau Ma, 2015-03-27 Beneath the hurdy gurdy madness of your world lies an orderly web of patterns that structure your reality Nothing is random There is a predictable order to the strings that weave your fate You live on one interconnected planet comprised of twelve primal universal omnipresent patterns Your Soul passes through specific stages in its life cycle and you experience them as the hand turning the Wheel of Destiny This book will help you recognize the patterns in your life and thus ease your way as you ride The Wheel of Fate These archetypal profiles are keys to unlock the mysteries inside you and inside your past They can show you the possibilities of what your future may hold These universal energies move through your body as life force and through your mind as consciousness In the body each ache and pain each accident and illness is a communication from the body guiding you to refine some aspect of your relationship with the archetypal pattern of the life force within you These patterns imprint you on spiritual mental emotional and physical levels The profiles in this book reveal the quirks and common threads intrinsic to in each archetype They map the traits events likes and dislikes that accompany each archetype and by so doing reveal the hidden threads that weave your personal version of reality

Bits of Spirit & Parts of Soul" ...Reclaiming the Archetypes of Creation Within. Nevine Z Rottinger, 2014-12-01 Within every human as within the whole of creation there exist major fundamental directive and working energetic programmes Some call these massive force fields of influence the Archetypes whilst others call them Morphological Fields Ancient cultures recognised them as their Gods the Mind of God These fundamental energy fields are perhaps best understood as the bits of Prime Creator Great Spirit the parts of soul within humans plants animals the elements throughout creation As you read Book 1 and Book 2 describing the Major Archetypes of Creation you will gain a profound understanding of yourself the force field which permeates the very Stuff of Creation The content within these 2 books is divided into four stand alone parts which allow you the reader the freedom to explore any single group of archetypes in any order you wish Included are sections for those who wish to use the Vibrational Essences Elixirs which are designed to activate enhance these same Archetypal Energies within you should you wish it The material is channeled may at times break grammatical rules Just read as is you will understand the reason

Soul Psychology Joshua David Stone, Ph.D., 2010-11-24 The words of Sai Baba God equals man minus ego are echoed by Dr Joshua David Stone in his seminal work Soul Psychology A veteran transpersonal psychologist and family counselor Dr Stone teaches us how our entire understanding of ourselves and others is completely changed when we integrate our soul into the

way we live our lives Based on eighteen years of Dr Stone s practice this book is not a psychological approach to spirituality It is rather a spiritual approach to the psychology of everyday living At the heart of Soul Psychology is emotional healing through the dismantling of the negative ego a psychological cancer that prevents us from acting in accordance with our soul s true nature and purpose This negative energy drives us to find our security outside of ourselves whereas the only true security is one that is grounded in having a right relationship with self and a right relationship with the Divine To guide us onto this path of spiritual ascension Soul Psychology offers a stimulating new viewpoint that expands the boundaries of traditional spiritual practice providing a wealth of accessible and powerful meditations and exercises including The six step process for healing and spiritualizing emotions The spiritual science of the seven rays and the twenty two chakras Methods for clearing negative psychic energies that inhibit soul growth The one hundred most common pitfalls and traps on the spiritual path

Archetypes Elémire Zolla,2015-06-18 Man is dominated by his archetypes they mould not only his history but his dreams But how are we to define and evaluate them Is it perhaps possible for us to relate more creatively to them Originally published in 1981 these are some of the questions raised by this title To answer them the author gathered together a vast amount of material drawn from Eastern and Western traditions from science literature art and poetry The answers he puts forward are often highly original and will surely challenge many of our most cherished patterns of thought There emerges from this book what can only be described as a global metaphysical system yet the author s language is not that of an ordinary metaphysical treatise and what he writes offered new challenge and hope to those suffering from the despair and cynicism engendered by a great deal in modern society at the time Zolla does not however advocate a return to earlier historical patterns nor is he proposing a new Utopia but rather offers us a brilliant series of lessons in the art of centring In the words of Bernard Wall writing in the Times Literary Supplement Zolla s deep polymathic probing of the terms of human existence makes it sensible to compare him with Simone Weil while some of his conclusions about ultimate mysteries expressed in signs symbols and sacraments the sense of which we have lost will make us think of the later T S Eliot

Archetype and Character V. Odajnyk,2012-07-25 Introducing a new typology based on Power Eros Matter and Spirit as the motivations that define human attitudes and behaviour the book outlines eight personality types based on the extraverted and introverted deployment of the four drives and applies these typological categories to Freud Adler and Jung

The Soul in Everyday Life Daniel Chapelle,2003-09-25 Argues that contemporary psychology neglects the soul and addresses ways to remedy this The Soul in Everyday Life argues that modern psychology has given up on dealing with the idea of soul or psyche even though the field is named after it If psychology wishes to be truly satisfying it needs to be more than behavioral science according to Daniel Chapelle He concludes that psychology can only satisfy the deepest human needs when it can offer a sense of soul in everyday life He explores ways of restoring this sense of soul to everyday life by examining how talk about something as elusive as the soul is possible and by reanimating a sense for what the notion of soul can mean Working in the

tradition of Nietzsche Freud Jung and Jung's student James Hillman Chappelle reaches back into millennia of Western thought to reanimate the dying sense of soul in everyday life and put the psyche back in psychology **Anatomy of Spirituality:**

Portrait of the Soul Chander Behl, 2015-04-27 The domain of spirituality separated from its theological overburden believes in the existence of a spiritual self presumed to be distinctly separate from the psychological self The spiritual eternal self also known as the soul or spirit sometimes supported by an overarching Spirit is asserted to be operating behind the ephemeral self This book takes a contrarian stance it argues that the premise of the soul concept is obtained through the magic of language maintained through the marvel of the brain's biochemistry and sustained through the mirage of the psychological juggernauts of the brain The magic the marvel and the mirage together bring about subtle shifts as the linguistic brain suppresses many psychological details habitually applies mental templates such as inversions and dichotomies and enhances its language by coining religious and spiritual metaphors The consequence of these changes is that the usual flickering self begins to be impressed by itself believing it is buttressed by something transcendental and eternal within the soul or the spirit The self although indoctrinated during its formative years also begins to assimilate and accept the opinion that the overwhelming weight of religious doctrines and dogmas the overburden signifies as the legitimate proof for the eternal soul

The Soul's Upward Yearning Robert Spitzer, 2015-08-10 Since the early twentieth century scientific materialism has so undermined our belief in the human capacity for transcendence that many people find it difficult to believe in God and the human soul The materialist perspective has not only cast its spell on the natural sciences psychology philosophy and literature it has also enthralled popular culture which offers very little to encourage the soul's upward yearning There are many signs of the widespread loss of confidence in our ability to soar upward and these have been noted by thinkers as diverse as Carl Jung psychiatrist Mircea Eliade historian of religion Gabriel Marcel philosopher and authors C S Lewis and J R R Tolkien Their observations were validated by a 2004 study published in the American Journal of Psychiatry that linked the absence of religion with a marked increase in suicide meaninglessness substance abuse separation from family members and other psychological problems Thus the loss of transcendence is negatively affecting an entire society It is stealing from countless individuals their sense of happiness dignity ideals virtues and destiny Ironically the evidence for transcendence is greater today than in any other period in history The problem is this evidence has not been compiled and made widely available a challenge Father Spitzer aspires to meet with this book Father Spitzer's work provides a bright light in the midst of the darkness by presenting traditional and contemporary evidence for God and a transphysical soul from several major sources It shows that we are transcendent beings with souls capable of surviving bodily death that we are self reflective beings aware of and able to strive toward perfect truth love goodness and beauty that we have the dignity of being created in the very image of God If we underestimate these truths we undervalue one another underlive our lives and underachieve our destiny The Anthroposophical Soul Calendar and the Incarnation Cycle of Man Roland Schrapp, 2021-01-14 This book

takes a completely new look at the Anthroposophical Soul Calendar. It is about the deeper meaning of the fifty-two weekly verses which has remained essentially unexplored in the last hundred years since the first edition by Rudolf Steiner. A dense veil of Isis was spread over them of which it is well known that no mortal person can lift it. Only the immortal psycho-spiritual human being who knows himself at home in the extrasensory higher worlds is capable of doing this. Only to him the weekly verses reveal themselves as a travel guide through these worlds and lift him up to ever higher spiritual cosmic realms until he reaches the experience of God from where he gradually descends again into a new life on Earth enriched in spirit and fertilized in his soul. If the reader embarks on this journey the spiritual archetype of the Soul Calendar is ultimately unveiled to him and he achieves an extended understanding of Man and Christ. By many quotations from Rudolf Steiner's lectures and books the author virtually lets Steiner himself elucidate the breathtaking depths of his mysterious weekly verses.
