Architecture For The Poor An Experiment In Rural Egypt Phoenix Books:

Architecture for the Poor Hassan Fathy, 2010-02-15 Architecture for the Poor describes Hassan Fathy's plan for building the village of New Gourni near Luxor Egypt without the use of more modern and expensive materials such as steel and concrete Using mud bricks the native technique that Fathy learned in Nubia and such traditional Egyptian architectural designs as enclosed courtyards and vaulted roofing Fathy worked with the villagers to tailor his designs to their needs He taught them how to work with the bricks supervised the erection of the buildings and encouraged the revival of such ancient crafts as claustra lattice designs in the mudwork to adorn the buildings Architecture for the poor; an experiment in rural Egypt H. Fathy, **Eco-Homes** Doctor Jenny Pickerill, 2016-01-15 It is widely understood that good affordable eco housing needs to be at the heart of any attempt to mitigate or adapt to climate change This is the first book to comprehensively explore eco housing from a geographical social and political perspective It starts from the premise that we already know how to build good eco houses and we already have the technology to retrofit existing housing Despite this relatively few eco houses are being built Featuring over thirty case studies of eco housing in Britain Spain Thailand Argentina and the United States Eco Homes examines the ways in which radical changes to our houses such as making them more temporary using natural materials or relying on manual heating and ventilation systems require changes in how we live As such it argues it is not lack of technology or political will that is holding us back from responding to climate change but deep rooted cultural and social understandings of our way of life and what we expect our houses to do for us **Architecture for the Poor** Hassan Fathy, 1989 **The Bookseller**, 1976 *British Books in Print*, 1985 *Architecture for the Poor*, 1989 At the End of the Century Richard Koshalek, Elizabeth A.T. Smith, Celik Zeynep, 1998-09-15 A comprehensive and up to date survey of 20th century architecture this volume presents a global perspective on the significant works architects ideas and directions of the past 100 years 316 illustrations 148 in color Paperbacks in Print, 1980 Whitaker's Books in Print, 1998
