Heating and Ventilating Buildings With Warm Air If you want to ventilate your room to warm it and open the bottom aperture

you will succeed in both because the fresh air will be the warmest and will not stop until it comes in contact with the ceiling

where spreading out in a level strata over the whole ceiling it will keep its relative position to the whole body until it reaches

the bottom and passes out through the aperture If we want to ventilate our room to cool it we must let the air out at or near
