Gerald Adler, Manolo Guerri, 2018-10-29 Riverscapes are the main arteries of the world's largest cities and have for millennia been the lifeblood of the urban communities that have developed around them. These human settlements given life through the space of the local waterscape soon developed into ritualised spaces that sought to harness the dynamism of the watercourse and create the local architectural landscape. Theorised via a sophisticated understanding of history, space, culture and ecology, this collection of wonderful and deliberately wide-ranging case studies from Early Modern Italy to the contemporary Bengal Delta investigates the culture of human interaction with rivers and the nature of urban topography. Riverine explores the ways in which architecture and urban planning have imbued cultural landscapes with ritual and structural meaning.

The Sorcerer's Scholar Claude Lecouteux, 2025-09-23 Contains hardcover editions of Dictionary of Ancient Magic Words and Spells, Traditional Magic Spells for Protection and Healing and The High Magic of Talismans and Amulets in a collector's slipcase. Analyzes more than 7 000 spells from the magical traditions of Europe and provides a comprehensive history of the use of talismans and amulets from the Middle Ages to today. Through meticulous study of his private collection of medieval manuscripts as well as his privileged access to the rare book archives of major European universities, Claude Lecouteux has become renowned in esoteric academic circles for his in-depth examinations of the myths and magical practices of the Middle Ages. In this deluxe boxed set are three outstanding examples of Lecouteux's masterful scholarship, each in a deluxe hardcover edition housed in a collector's slipcase. In Dictionary of Ancient Magic Words and Spells, Lecouteux analyzes more than 7 000 spells from the magical traditions and grimoires of Europe, presenting a comprehensive dictionary of magic words, phrases and alphabets. In Traditional Magic Spells for Protection and Healing, he shares more than 600 magical prescriptions from both pagan and Christian sources from the last 2 000 years. He provides an in-depth look at protection magic, including healing spells from rare texts and from the heavily guarded gypsy Rom tradition. In The High Magic of Talismans and Amulets, he provides a comprehensive history of the use of talismans and amulets for protection, healing and divine influence. He reviews many different kinds of amulets and talismans used throughout the ages, such as a rabbit's foot, horseshoe, gris-gris bag and inscribed parchment, charged through ritual, detailing the magical principles behind each object and showing that their use is still as widespread today as any time in the past.

Visualizing Household Health Jennifer Borland, 2022-02-21 In 1256 the countess of Provence, Beatrice of Savoy, enlisted her personal physician to create a health handbook to share with her daughters. Written in French and known as the *Rhime du corps*, this health guide would become popular and influential, with nearly seventy surviving copies made over the next two hundred years and translations in at least four other languages. In *Visualizing Household Health*, art historian Jennifer Borland uses the *Rhime* to show how gender and health care converged within the medieval household. *Visualizing Household Health* explores the nature of the households portrayed in the *Rhime* and how their members interacted with professionalized medicine. Borland focuses on several illustrated versions of the manuscript that contain historiated initials depicting simple

scenes related to health care such as patients consultations with physicians procedures like bloodletting and foods and beverages recommended for good health Borland argues that these images provide important details about the nature of women s agency in the home and offer highly compelling evidence that women enacted multiple types of health care Additionally she contends the R gime opens a window onto the history of medieval women as owners patrons and readers of books Interdisciplinary in scope this book broadens notions of the medieval medical community and the role of women in medieval health care It will be welcomed by scholars and students of women s history art history book history and the history of medicine
