career he was the comic industry's foremost proponent of modern design and composition. Starting in 1950, his work influenced almost every one of his contemporaries and has continued to work its magic on the generations that followed. In animation, his 1960s model sheets for Hanna-Barbera are still passed around as swipe sources from animator to young animator in the 21st Century. Included are complete stories from the 1950s and beyond, recently discovered color animation storyboards and presentation drawings, sketches and doodles, industrial comics and individual pages from obscure comics and magazines. It's a treasure trove that makes a fitting companion to the Eisner Award-winning Alex Toth Genius trilogy.
