art unit that utilizes a method of presenting lessons that will allow even the most uncertain individual to have success with art. Each lesson details step by step directions involving easy to draw shapes such as circles, ovals, letter shapes and clouds to create an image. One preferred strategy is for the teacher to demonstrate the steps with students following along creating a rough draft. This allows students to make mistakes and practice the various techniques insuring a better final product. Although each lesson stands on its own, they are best taught in order as several techniques are explored and evolve in difficulty. This Art lesson provides a teacher and student section with a variety of step by step student projects and evaluation to create a well rounded lesson plan.

Art A La Carte: Shape Shifters Gr. 4-7 Vanessa Isitt, 1999-01-01. This art unit is based upon the artistic premise that all artists make use of some basic shapes when developing an image. The lessons are based upon letters and shapes that students learn about on an ongoing basis. One preferred strategy is for the teacher to demonstrate each step with the students following his or her example. It is suggested that the teachers make large samples of each template and then physically manipulate these templates to build creatures or characters. These larger templates could also be incorporated into a creative center where younger students can experiment with building creatures. This Art and Math lesson provides a teacher and student section with a variety of step by step student projects and evaluation to create a well rounded lesson plan.
