The Johnson Circle Lyle Larsen, 2017-10-05 Samuel Johnson from early boyhood lived with the knowledge that his homely face large and ungainly body loud voice and odd mannerisms put people off He later confessed that he had never made an effort to please others until past thirty considering the matter as hopeless Yet he managed to gather about him as friends especially during the last quarter of his life some of the most fascinating and accomplished people of the day These friendships were not always smooth and some did not last but Johnson valued the individuals nonetheless Actor painter playwright novelist Greek scholar miscellaneous writer biographer leading bluestocking wealthy man of fashion they represented a wide range of talents and personalities Johnson brought them together as a group and all testified that in knowing him they became far better persons than they otherwise would have been This book focuses on ten key figures aside from Johnson himself of the so called Johnson circle It explores their characters their contributions to society their
