Taylor Swift for Adults Kev Nickells,2024-07-30 Taylor Swift for Adults is a tantalizing opening salvo in Swiftology the study of the work of Taylor Swift While Swift s private life has been covered to death her talent as a lyricist has rarely been analyzed Until now Swifties are well aware that she s a lyricist par excellence but this book makes that case to the unbelievers Swift s gift as a songwriter is not merely sentimentality and circumstance and this book takes a deep look at her 10 albums to isolate what makes her a beloved lyricist for millions Any serious study of a lyricist or poet needs to establish what are the tropes the patterns and the style of that artist and this book does precisely that With careful attention to poetic detail the scansion flow and form of her writing this brings out those details that pass by in a flash on the radio bringing them fully into focus Many have made the argument that Swift is a gifted lyricist in online forums and YouTube comments but this is the first time in writing those arguments have been given shape and serious attention It s a book aimed at adults but not po faced bores taking a subject seriously can also mean laughing at swearwords and sex metaphors Rather than po faced and straitened this is a lightly witty book expressing at its core a deep affection for this generation s favorite songwriter

The Words and Music of Taylor Swift James E. Perone, 2017-07-14 This scholarly analysis of the music of Taylor Swift identifies how and why she is one of the early 21st century's most recognizable and most popular stars By the age of 13 singer-songwriter Taylor Swift had already inked a development deal with a major record label This early milestone was an appropriate predictor of what accomplishments were to come Now a superstar artist with an international fanbase of millions and several critically acclaimed and commercially successful albums Swift has established herself as one of the most important musicians of the 21st century This accessible book serves Taylor Swift fans as well as students of contemporary popular music and popular culture critically examining all of this young artist's work to date The book's organization is primarily chronological covering Taylor Swift's album and single releases in order of release date while also documenting the elements of her music and personality that have made her popular with fans of country music and pop music across a surprisingly diverse age range of listeners The chapters address how Swift's songs have been viewed by some fans as anthems of empowerment or messages of encouragement particularly by members of the LGBTQ community those who have been bullied or been seen as outsiders and emerging artists The final chapter places Swift's work and her public persona in the context of her times with respect to her use of and relationship with technology for example her use of social media and songwriting technology and her expressions of a new type of feminism that is unlike the feminism of the 1970s
