Benchmarks for Science Literacy Project 2061 (American Association for the Advancement of Science),1993 Describes what students should know and be able to do in science mathematics and technology by the ends of grades 2 5 8 and 12

Benchmarks for Science Literacy ,1993 **Benchmarks for Science Literacy** American Association for the Advancement of Science,1994-01-06 Published to glowing praise in 1990 Science for All Americans defined the science literate American describing the knowledge skills and attitudes all students should retain from their learning experience and offered a series of recommendations for reforming our system of education in science mathematics and technology Benchmarks for Science Literacy takes this one step further Created in close consultation with a cross section of American teachers administrators and scientists Benchmarks elaborates on the recommendations to provide guidelines for what all students should know and be able to do in science mathematics and technology by the end of grades 2 5 8 and 12 These grade levels offer reasonable checkpoints for student progress toward science literacy but do not suggest a rigid formula for teaching Benchmarks is not a proposed curriculum nor is it a plan for one it is a tool educators can use as they design curricula that fit their student s needs and meet the goals first outlined in Science for All Americans Far from pressing for a single educational program Project 2061 advocates a reform strategy that will lead to more curriculum diversity than is common today IBenchmarks emerged from the work of six diverse school district teams who were asked to rethink the K 12 curriculum and outline alternative ways of achieving science literacy for all students These teams based their work on published research and the continuing advice of prominent educators as well as their own teaching experience Focusing on the understanding and interconnection of key concepts rather than rote memorization of terms and isolated facts Benchmarks advocates building a lasting understanding of science and related fields In a culture increasingly pervaded by science mathematics and technology science literacy require habits of mind that will enable citizens to understand the world around them make some sense of new technologies as they emerge and grow and deal sensibly with problems that involve evidence numbers patterns logical arguments and technology as well as the relationship of these disciplines to the arts humanities and vocational sciences making science literacy relevant to all students regardless of their career paths If Americans are to participate in a world shaped by modern science and mathematics a world where technological know how will offer the keys to economic and political stability in the twenty first century education in these areas must become one of the nation s highest priorities Together with Science for All Americans Benchmarks for Science Literacy offers a bold new agenda for the future of science education in this country one that is certain to prepare our children for life in the twenty first century Project 2061 Project 2061 (American Association for the Advancement of Science),1997 *Benchmarks for Science Literacy on Disk* American Association for the Advancement of Science Staff,1995-07 When Benchmarks for Science Literacy was first published Bruce Alberts president of the National Academy of Sciences praised it as another milestone in

the long standing effort of Project 2061 to improve the teaching and learning of science for all Americans Now the monumental achievement of Benchmarks for Science Literacy is available in a computer disk format for use on IBM compatible personal computers in MS DOS This superb science learning tool enables users to browse assemble and print benchmarks in various formats Users can also review conceptual strands a new tool on the electronic version that provides sequences of benchmarks that students should progress through on the way toward a specific science literacy goal In addition teachers can brainstorm about how to coordinate seemingly unrelated benchmarks by using benchmark roulette a function which creates a random sample of six benchmarks at two grade levels that can be used as a basis for discussion Benchmarks for Science Literacy on Disk greatly enhances the capabilities of its companion book allowing teachers to tailor searches that are relevant to the grades and subjects they teach Both quick and easy to use this extraordinary program allows instant reference access to the entire spectrum of teaching and learning possibilities available with Benchmarks Focusing on the understanding and interconnection of key concepts rather than rote memorization of terms and isolated facts Benchmarks advocates building a lasting knowledge of science and related fields In a culture increasingly pervaded by science mathematics and technology science literacy requires habits of mind that will enable citizens to understand the world around them make sense of new technologies as they emerge and grow and deal sensibly with problems that involve evidence numbers patterns logical arguments and technology as well as the relationship of these disciplines to the arts humanities and vocational studies making science literacy relevant to all students regardless of the career path they may choose Together Science for All Americans Benchmarks for Science Literacy and Benchmarks for Science Literacy on Disk offer a bold new agenda for the future of science in this country one that is certain to prepare our children for the challenges they will face in the future
