Faith in Democracy Mahmoud Masaeli, Nikolaos Asproulis, Rico Sneller, Timo Slootweg, 2020-01-02 This book explores the spiritual potential of faith mysticism and transcendence in answer to the dangers of a mythologised state and the sacro sanctification of liberal democracy and its rule of law It searches for a curative for the pathological transformation of these institutions into so called political religions Along this line it explores the importance of spirituality and transcendence for political legitimacy democratic participation and international cooperation law and politics There being no general agreed upon definition of spirituality the authors examine what may be seen as spiritual dimensions of the political These dimensions have in common a focus on transcendence as a vanishing point of rationality and rational justification This vanishing point may become manifest for example in a primordial requisite of becoming an individual person in responding in freedom to the call of theocracy in the phenomenon of prophecy or political wisdom in the remaining shards of formerly all pervasive religious institutions in tenacious hope for a democracy to come in the courageous resilience and resistance of citizens of non or un democratic states etc The authors of this book philosophers theologians psychologists jurists and others are more or less suspicious of the Modern theories of the social contract allegedly justifying democracy It may turn out however that the inexhaustive and unfathomable dimension of faith which comes up as an alternative is not so easy to handle as a rational argument This impracticality of faith and transcendence might be the irreducible yet indispensable predicament of democracy *Your Unique Facilitator Style* Amy Mindell, 2019-06-12 Whether you are a student in training or a long time

Independent Thinking in an Uncertain World Valerie A. Brown, John A. Harris, David Waltner-Toews, 2019-04-29 Any effective response to an uncertain future will require independently thinking individuals working together Human ideas and actions have led to unprecedented changes in the relationships among humans and between humans and the Earth Changes in the air we breathe the water we drink and the energy we use are evidence of Nature which has no special interest in sustaining human life looking out for itself Even the evolutionary context for humans has altered Evolutionary pressures from the digital communication revolution have been added to those from natural systems For humans to meet these challenges requires social re organisation that is neither simple nor easy Independent Thinking in an Uncertain World explores workable field tested strategies from the frontiers of creating a viable future for humans on Earth Based on research results from hundreds of social learning workshops with communities worldwide many of them part of Australian National University s Local Sustainability Project authors with diverse interests explore the gap between open minded individual thinking and closed socially defined knowledges The multiple dimensions of individual social and biophysical ways of thinking are combined in ways that allow open minded individuals to learn from one another

Wonder-Full Education Kieran Egan, Annabella I. Cant, Gillian Judson, 2013-07-24 For many children much of the time their experience in classrooms can be rather dull and yet the world the school is supposed to initiate children into is full of wonder This book offers a rich understanding of the nature and roles of wonder in general and provides multiple suggestions for to how to revive wonder in adults teachers and curriculum makers and how to keep it alive in children Its aim is to show that adequate education needs to take seriously the task of evoking wonder about the content of the curriculum and to show how this can routinely be done in everyday classrooms The authors do not wax flowery they present strong arguments based on either research or precisely described experience and demonstrate how this argument can be seen to work itself out in daily practice The emphasis is not on ways of evoking wonder that might require virtuoso teaching but rather on how wonder can be evoked about the everyday features of the math or science or social studies curriculum in regular classrooms

Gateway to the Dao-field Avraham Cohen, 2009 This book evolved from Avraham Cohen s doctoral dissertation for which he received the 2006 2007 Ted Aoki Prize for the Outstanding Dissertation in Curriculum Studies from the University of British Columbia Cohen who has an extensive

background as a humanistic existential therapist and as a mindfulness meditator believes that these two fields have much to offer in the field of education His work in this book supplies a rich resource and shows that indeed the practice and philosophy of mindfulness and humanistic existential practices is a gold mine waiting to be fully mined and applied in education These ideas and practices come alive in his writings This collection of provocative and evocative essays written for both educational theorists and classroom practitioners addresses very directly the much neglected human dimension and community development potential within classrooms His groundbreaking work describes what most of us know intuitively to be important in classrooms and which is rarely adequately addressed how to be authentically and fully human and how this pedagogy of being human is central to becoming a great educator He points towards the practical implementation of pedagogic practices that integrate the personal inner work of the educator classroom practice and curriculum learning

Realising Critical HRD Jamie L. Callahan, Clare Rigg, Sally Sambrook, 2015-10-19 This book contends that the project of Critical Human Resource Development CHRD is to effect change transformation and that as such critical scholars must expose the injustices and inequities associated with the neoliberal narrative which forms the dominant rationality of current mainstream HRD practice In other words those that would change must first recognise that there is a problem worthy of being transformed It is here that much of the CHRD project has plateaued there is much theorising on dominant ideology hegemony power structures and other artefacts of a critical agenda yet there are comparatively few empirical explorations of the CHRD project that would facilitate practical engagement This book offers a means to help progress CHRD from its current concern with problem recognition to a champion of meaningful change This book offers a series of chapters that provide examples of different approaches to engaging in interventions that allow CHRD professionals to challenge power structures and in turn begin to effect change for organisations and employees alike The chapters are clustered in three distinct approaches to thinking about talking about and doing critical practice thus the sections of the book are titled Reflecting Voicing and Enacting

The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and suspenseful novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
