A Preliminary Critique Of Hans Hermann Hoppes Argumentation Ethics:

A Preliminary Critique Of Hans-Hermann Hoppe's Argumentation Ethics Adam Knott, 2008 **Communication and Libertarianism** Pavel Slutskiy, 2021-08-02 This is an outstanding contribution to both libertarian political philosophy and communication theory. It is far and away the most comprehensive work on communication issues in libertarian theory ever published. The author has integrated successfully the libertarian insights of Mises, Rothbard, Block, Kinsella and others with the philosophy of language as developed by Austin, Searle and Grice. He has done so in a unique and unprecedented way. The book would appeal to students and scholars interested in libertarian theory and more generally to philosophers and political scientists interested in high level scholarship. David Gordon, libertarian philosopher and intellectual historian, Ludwig von Mises Institute.

Philosophical Foundations of Communication Studies Pavel Slutskiy, 2024-07-26 This book explores the philosophical foundations of communication studies, suggesting that communication phenomena extend beyond the scope of traditional scientific methods. It argues that communication, deeply intertwined with human behavior, cannot be fully comprehended through empirical methods alone. The book presents an epistemological alternative to empiricism in communication studies, an alternative rooted in the praxeological perspective. Drawing from the principles of rationalism, it proposes that conclusions about communication can be deduced from a priori theoretical truths rather than empirical evidence. This book is a crucial resource for scholars in both philosophy and communication studies. **Manusya**, 2016
